Do you really feel the same way everyday? Do you think you are intended to? Women are tied to the moon not only biologically (through their monthly menses), but also on deep inner planes. The moon moves from sign to sign every month, and takes all women along for a virtual journey that's experienced through vivid mood changes. Each sign is endowed with character and represents one of the twelve Divine archetypes. These come to life as the moon awakens them in due succession during the course of her recurrent monthly passages. Recognizing how these themes embedded into time move you will deepen your understanding of who you are. And since the moon's cycles can be plotted, you gain a powerful strategy for wisely utilizing your place(s) in time. Moon Dance is designed for those with astrological knowledge, as well as those ready to learn to respond to the rhythms of time as naturally felt and experienced on the inside.
