Cornel West summarizes and questions the major thinkers that contribute to the culture of African American revolutionary. He's open to many ideas and presents them to the reader as a new way of seeing the movement. Mainly he proposes how you can take the Marxism political ideology into a prophecy theology. Cornel West is a major thinker.

Cornel West: Yes, because going back now that was 1982, so that would be 37 years ago. What I was trying to do was to say that black people in the history of the United States have cultivated certain gifts in the face of unbelievable hatred and greed and domination and degradation, and those gifts are social as well as spiritual.

In this, his premiere work, Cornel West provides readers with a new understanding of the African American experience based largely on his own political and cultural perspectives borne out of his own life's experiences. He challenges African Americans to consider the incorporation of Marxism into their theological perspectives, thereby adopting the mindset that it is class more so than race that renders one powerless in America. Armed with a new introduction by the author, this Twentieth Anniversary Edition of Prophecy Deliverance! is a must have.

"Prophecy Deliverance! is an exhilarating and challenging intellectual exercise. Cornel West takes the philosophic enterprise, the quest for the right way to live, with utmost seriousness, and has given us an impressive blueprint toward a framework that would meet questions o human living. His book is one of the most important and sophisticated statements in the field of Black Religious Studies in recent years". ---Cross Currents

"You can ' t lead the people if you don ' t love the people. You can ' t save the people if you don ' t serve the people." The New York Times bestselling author of Race Matters and Democracy Matters offers provocative, open-hearted wisdom for our times. In a world that yearns for unarmed truth and unconditional love, in the midst of cold greed and blind hatred, Hope on a Tightrope offers a new compass. This courageous collection will challenge all those in search of new perspectives and provides deep wells of inspiration that marry the mind to the heart. Whether writing on race and identity, courage and faith, or music and philosophy,Dr. West reveals himself as a brilliant philosopher who loves us enough to make us think. He challenges us, stimulates us and never, ever stops serving us. As you read the book, allow yourself to contemplate Dr. West's wisdom. Let him become your intellectual and spiritual sparring partner, and stand on his shoulders to gain a new view of the world and your place in it.

"This collection of writings, drawn from a wide variety of sources, reveals the intellectual depth and breadth of the author. The articles include political commentary, cultural critique, literary analysis, extended book reviews, and even a short story by West. All of these are held together by a prophetic Afro-American Christian perspective. The value of this book is that it provides easy access to a significant selection of the author's corpus." --Religious Studies Review (October 1989) "This volume collects over 50 articles, book reviews, and addresses by a Union Seminary theologian The most eloquent pieces are those in which West explains and interprets his more personally felt tradition of Afro-American Protestantism." -- Library Journal

The twenty-fifth-anniversary edition of the groundbreaking classic, with a new introduction First published in 1993, on the one-year anniversary of the Los Angeles riots, Race Matters became a national best seller that has gone on to sell more than half a million copies. This classic treatise on race contains Dr. West's most incisive essays on the issues relevant to black Americans, including the crisis in leadership in the Black community, Black conservatism, Black-Jewish relations, myths about Black sexuality, and the legacy of Malcolm X. The insights Dr. West brings to these complex problems remain relevant, provocative, creative, and compassionate. In a new introduction for the twenty-fifth-anniversary edition, Dr. West argues that we are in the midst of a spiritual blackout characterized by imperial decline, racial animosity, and unchecked brutality and terror as seen in Baltimore, Ferguson, and Charlottesville. Calling for a moral and spiritual awakening, Dr. West finds hope in the collective and visionary resistance exemplified by the Movement for Black Lives, Standing Rock, and the Black freedom tradition. Now more than ever, Race Matters is an essential book for all Americans, helping us to build a genuine multiracial democracy in the new millennium.

" Uncompromising and unconventional . . . Cornel West is an eloquent prophet with attitude. " —Newsweek " West reveals himself as a thinker of dazzling erudition, whose critiques are inevitably balanced by an infectious optimism and magnanimity of spirit. " —The Village Voice In his major bestseller, Race Matters, philosopher Cornel West burst onto the national scene with his searing analysis of the scars of racism in American democracy. Race Matters has become a contemporary classic, still in print after ten years, having sold more than four hundred thousand copies. A mesmerizing speaker with a host of fervidly devoted fans, West gives as many as one hundred public lectures a year and appears regularly on radio and television. Praised by The New York Times for his "ferocious moral vision" and hailed by Newsweek as "an elegant prophet with attitude," he bridges the gap between black and white opinion about the country's problems. In Democracy Matters, West returns to the analysis of the arrested development of democracy—both in America and in the crisis-ridden Middle East. In a strikingly original diagnosis, he argues that if America is to become a better steward of democratization around the world, we must first wake up to the long history of imperialist corruption that has plagued our own democracy. Both our failure to foster peace in the Israeli-Palestinian conflict and the crisis of Islamist anti-Americanism stem largely from hypocrisies in our dealings with the world. Racism and imperial expansionism have gone hand in hand in our country's inexorable drive toward hegemony, and our current militarism is only the latest expression of that drive. Even as we are shocked by Islamic fundamentalism, our own brand of fundamentalism, which West dubs Constantinian Christianity, has joined forces with imperialist corporate and political elites in an unholy alliance, and four decades after the murder of Dr. Martin Luther King, Jr., insidious racism still inflicts debilitating psychic pain on so many of our citizens. But there is a deep democratic tradition in America of impassioned commitment to the fight against imperialist corruptions—the last great expression of which was the civil rights movement led by Dr. King—and West brings forth the powerful voices of that great democratizing tradition in a brilliant and deeply moving call for the revival of our better democratic nature. His impassioned and provocative argument for the revitalization of America's democracy will reshape the terms of the raging national debate about America's role in today's troubled world.

Believing that African American religious studies has reached a crossroads, Cornel West and Eddie Glaude seek, in this landmark anthology, to steer the discipline into the future. Arguing that the complexity of beliefs, choices, and actions of African Americans need not be reduced to expressions of black religion, West and Glaude call for more careful reflection on the complex relationships of African American religious studies to conceptions of class, gender, sexual orientation, race, empire, and other values that continue to challenge our democratic ideals.

An unflinching look at nineteenth- and twentieth-century African American leaders and their visionary legacies. In an accessible, conversational format, Cornel West, with distinguished scholar Christa Buschendorf, provides a fresh perspective on six revolutionary African American leaders: Frederick Douglass, W. E. B. Du Bois, Martin Luther King Jr., Ella Baker, Malcolm X, and Ida B. Wells. In dialogue with Buschendorf, West examines the impact of these men and women on their own eras and across the decades. He not only rediscovers the integrity and commitment within these passionate advocates but also their fault lines. West, in these illuminating conversations with the German scholar and thinker Christa Buschendorf, describes Douglass as a complex man who is both " the towering Black freedom fighter of the nineteenth century " and a product of his time who lost sight of the fight for civil rights after the emancipation. He calls Du Bois " undeniably the most important Black intellectual of the twentieth century " and explores the more radical aspects of his thinking in order to understand his uncompromising critique of the United States, which has been omitted from the American collective memory. West argues that our selective memory has sanitized and even " Santaclaused " Martin Luther King Jr., rendering him less radical, and has marginalized Ella Baker, who embodies the grassroots organizing of the civil rights movement. The controversial Malcolm X, who is often seen as a proponent of reverse racism, hatred, and violence, has been demonized in a false opposition with King, while the appeal of his rhetoric and sincerity to students has been sidelined. Ida B. Wells, West argues, shares Malcolm X ' s radical spirit and fearless speech, but has " often become the victim of public amnesia. " By providing new insights that humanize all of these well-known figures, in the engrossing dialogue with Buschendorf, and in his insightful introduction and powerful closing essay, Cornel West takes an important step in rekindling the Black prophetic fire so essential in the age of Obama.

"Wood evaluates the political consequences of a shift in West's position from an earlier, revolutionary socialist stance to a later, progressive reformist one. Wood shows how West's subsequent reworking of Marxism supports his transition from a socialist to a progressivist politics."--BOOK JACKET.

"The sheer range of West's interests and insights is staggering and exemplary; he appears equally comfortable talking about literature, ethics, art, jurisprudence, religion, and popular-cultural forms." - Artforum Keeping Faith is a rich, moving and deeply personal collection of essays from one of the leading African American intellectuals of our age. Drawing upon the traditions of Western philosophy and modernity, Cornel West critiques structures of power and oppression as they operate within American society and provides a way of thinking about human dignity and difference afresh. Impressive in its scope, West confidently and deftly explores the politics and philosophy of America, the role of the black intellectual, legal theory and the future of liberal thought, and the fate of African Americans. A celebration of the extraordinary lives of ordinary Americans, Keeping Faith is a petition to hope and a call to faith in the redemptive power of the human spirit.
