Bienvenidos a una nueva entrega de la colección mas exitosa de América, bienvenidos al Tomo número 18 de HDIW! En esta nueva edición hemos decidido tomar un camino diferente a nuestra forma de escribir y de transmitir conocimientos y experiencias. Este nuevo tomo no se trata de un manual técnico como los manuales anteriores, sino que se trata de un manual explicativo basado en experiencias vividas por un grupo de profesionales de líneas aéreas que hoy forman

tripulaciones de elite en compañías aéreas internacionales a lo largo del mundo. Ellos detallarán sus propios caminos hasta llegar a donde están, expresarán sus experiencias recomendando a cada lector la vía más ágil para lograr sus objetivos profesionales. HDIW Introducción a Línea Aérea, está enfocado en comprender el camino hasta llegar a formar parte de una tripulación de vuelo internacional, comenzando desde la entrevista inicial en una compañía, pasando por todo el proceso de selección de personal, los cursos teóricos del avión a volar, la instrucción en simulador específico, la instrucción en vuelo real, la instrucción semestral, los chequeos anuales y semestrales, el día a día del trabajo con todos los detalles operativos y un sin fin de detalles más a conocer. A lo largo de estas páginas cada lector conocerá las experiencias vividas por nuestro equipo de pilotos, hoy temporalmente escritores, quienes han dedicado su tiempo libre a confeccionar un retrato de sus experiencias a las que llamaremos "Historias de Éxito" con el objeto de que este manual se convierta en una guía indispensable para todo aquel piloto que desee alcanzar el sueño de volar una línea aérea internacional. Por tal dedicación, agradecemos a Marcos (Piloto Boeing 787 Latam Airlines), Maximiliano (Piloto Airbus 380 Emirates), Fernando (Piloto Airbus 320 Latam Airline) y José (Piloto A330 Avianca Airlines). HDIW Introducción a Línea Aérea, se convertirá

en un manual de uso diario, una agenda de pasos a seguir, y una guía personal del camino que espera por ser recorrido con dedicación, estudio y esfuerzo. Tomemos este manual como un mapa a seguir y disfrutemos de cada experiencia vivida por nuestros colegas pilotos quienes desean que cada lección sea una herramienta más de cada lector para lograr alcanzar sus objetivos profesionales. Bienvenidos a una nueva entrega de HDIW! Facundo Conforti.

Selecting the right aircraft for an airline operation is a vastly complex process, involving a multitude of skills and considerable knowledge of the business. *Buying The Big Jets* was first published in 2001 to provide guidance to those involved in aircraft selection strategies. This Second Edition brings the picture fully up to date, incorporating new discussion on the strategies of low-cost carriers, and the significance of the aircraft cabin for long-haul operations. Latest developments in aircraft products are covered and there are fresh examples of best practice in airline fleet planning techniques.

strategies. This Second Edition brings the picture fully up to date, incorporating new discussion on the strategies of low-cost carriers, and the significance of the aircraft cabin for long-haul operations. Latest developments in aircraft products are covered and there are fresh examples of best practice in airline fleet planning techniques. The book is essential reading for airline planners with fleet planning responsibility, consultancy groups, analysts studying aircraft performance and economics, airline operational personnel, students of air transport, leasing companies, aircraft value appraisers, and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision-makers. This book is also a valuable tool for the banking community where insights into aircraft acquisition decisions are vital. *Buying The Big Jets* is an industry-specific example of strategic planning and is therefore a vital text for students engaged in graduate or post-graduate studies either in aeronautics or business administration.

The implementation of Safety Management Systems at international airports was one of the most considerable changes in the regulatory framework for the operation and licensing of aerodromes in recent years. However, even more than five years after its inception it appears that the high expectations ICAO has placed on what has been

designed as paradigm shift in the way of doing business in the airport industry were not materializing and Safety Management Systems appear at best to only marginally impact the safety performance of airports. Based on the lessons learned from the implementation of SMS in Germany an ideal organizational set-up for a most effective aerodrome SMS shall be designed. This proposal of an ideal organizational set-up shall be validated through a model implementation at a representative airport and subsequent long term observation in live operation. This model implementation serves as a basis from which recommendations for a future European regulation of Aerodrome Safety Management Systems under the EASA system shall be derived.

Engaging the Next Generation of Aviation Professionals is an edited volume that brings together a diverse set of academic and professional perspectives within the three themes of attracting, educating, and retaining the next generation of aviation professionals (NGAP). This compilation is the first academic work specifically targeting this critical issue. The book presents a rich variety of perspectives, academic philosophies, and real-world examples. Submissions include brief case studies, longer scholarly works from respected academics,

and professional reflections from individuals who have made important contributions to their field. The book includes academic chapters that explore the topic from a more theoretical standpoint yet are accessible and understandable to a professional audience. These are complemented by both broad and specific practice examples that describe initiatives and applications occurring in the industry around the three themes. All submissions include descriptive insights, experiences, and first-hand accounts of accomplishments, intended to support the work of other professionals managing NGAP issues. This work will be valuable to anyone involved in attracting, educating, or retaining NGAP, including academics, operators, national and international regulators, and outreach coordinators, among many others.

Qatar's road to diversification is paved with ambitious investment programs in a host of sectors, such as agribusiness, IT, and food security. These investment programs and the trends and challenges shaping the Qatari economy are covered in great detail in *The Business Year: Qatar 2020*, our sixth publication dedicated to the country, produced in partnership with the Ministry of Commerce and Industry and the Qatari Businessmen Association. Over the period of our fact-finding, time and time again we were struck by the positive approach

of the different stakeholders to tackling the blockade introduced in 2017. Investors looking to understand the major trends and key players in the Qatari economy will find what they need within the pages of this publication. The Business Year's country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally.
