Napa and Sonoma Counties, located north of California ' s Bay Area, produce the vast majority of the finest American wines. Of the two, Napa County is more intensely focused on grape-growing to the exclusion of other crops, with one particular style of wine dominating production: Napa Valley cabernet sauvignon.

This Sonoma County cabernet is luxurious with a fair price

came out publicly as gay, not one of those tens of thousands of men had ever come out to the public as gay while an active player on a major league roster. Is it because gay men can't jump (or throw, or catch, or skate)? Or is it more likely that the costs of coming out are too high? In *Antigay Bias in Role-Model Occupations*, E. Gary Spitko argues that in the case of athletes, and others in role-model occupations, a record of widespread and frequently systematic employment discrimination has been excluding gay people from the public social spaces that identify and teach whom society respects and whom members of society should seek to emulate. Creating a typology of role models—lawyers/judges, soldiers, teachers, politicians, athletes, and clergy—and the positive values and character

traits associated with them, Spitko demonstrates how employment discrimination has been used for the purpose of perpetuating the generally accepted notion that gay people are inferior because they do not possess the requisite qualities—integrity, masculinity, morality, representativeness, all-American-ness, and blessedness—associated with employment in these occupations. Combining the inspirational stories of LGBT trailblazers with analysis of historical data, anecdotal evidence, research, and literature, *Antigay Bias in Role-Model Occupations* is the first book to explore in a comprehensive fashion the broad effects of sexual orientation discrimination in role-model occupations well beyond its individual victims.

Portraits of Early Sonoma County Settlers is the narrative history of sixteen early settlers in the area which is now Sonoma County, California. A number of these persons arrived before California became a state in 1850. A number of them were lured here by the Gold Rush of 1849. They engaged in wide and diverse activities. Several were directly or indirectly involved in the settlement and development of new towns in the area. Others contributed to the development of agriculture, schools, and religion. Some of them had to deal with the Mexican Government and the ranchos in early Alta California. Overall it gives a good picture of what the area was like as it moved towards and became a part of the United States of America.

grasslands covered with majestic oaks, this breathtaking pastoral landscape bordering the Russian River captivated settlers, who came to start businesses or grow grain, grapes, hops, and prunes on the rich river bottomland. For decades Windsor kept the quiet rhythm of a small, independent farm community, hardly broken by the addition of an army air base and a camp for German POWs during World War II.
