How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next

door. America's

wealthy seldom get that way through an

inheritance or an

advanced degree. They

bargain-shop for used

cars, raise children who

don't realize how rich

their families are, and

reject a lifestyle of

flashy exhibitionism and

competitive spending. In

fact, the glamorous

people many of us think

of as "rich" are actually

a tiny minority of

America's truly wealthy

citizens—and behave

quite differently than the

majority. At the time of

its first publication, *The*

Millionaire Next Door

was a groundbreaking

examination of

America's

rich—exposing for the

first time the seven

common qualities that

appear over and over

among this exclusive
demographic. This

edition includes a new
foreword by Dr.

Thomas J.

Stanley—updating the
original content in the
context of the financial
crash and the twenty-

first century. Their
surprising results reveal
fundamental qualities of
this group that are

diametrically opposed to
today's earn-and-
