Back in January of 2003 the U.S. rounds of the THQ World Supercross series kicked off with Honda CR250R-mounted defending champion Ricky Carmichael ready to take on all challengers. However, the King of Supercross dropped a bomb on the motocross world by announcing his retirement from full-time racing days before the season opener.

Never Far Away is a short story and resource for the parent who has a child that doesn't like to separate from them when time for school or work. It has illustrative pictures and content for the parent and child to interact before they go about their day.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.

A wonderfully witty, entertaining debut novel in the same vein as Kathy Lette, Helen Fielding and Marian Keyes. This is a light and clever women's romp set around lovable heroine Georgiana Abbot, a magazine editor from London who comes to Sydney to work as deputy editor of a girlie magazine, after her heart is broken.

GSXR1300R Hayabusa (1999-2007)

"Galileo's Middle Finger is historian Alice Dreger's eye-opening story of life in the trenches of scientific controversy. Dreger's chronicle begins with her own research into the treatment of people born intersex (once called hermaphrodites). Realization of the shocking surgical and ethical abuses conducted in the name of "normalizing" intersex children's gender identities moved Dreger to become an internationally recognized patient rights activist. But even as the intersex rights movement succeeded, Dreger began to realize how some fellow activists were using lies and personal attacks to silence scientists whose data revealed uncomfortable truths about humans. In researching one case, Dreger suddenly became a target of just these kinds of attacks. Troubled, she decided to try to understand more -- to travel the country and seek a global view of the nature and costs of these damaging battles. Galileo's Middle Finger describes Dreger's long and harrowing journeys between the two camps for which she felt equal empathy: social justice activists determined to win and researchers determined to put hard truths before comfort. What emerges is a lesson about the intertwining of justice and truth-- and about the importance of responsible scholars and journalists to our fragile democracy." --

American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN.
