More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you:

- Avoid the 9 deadly sins that destroy startups' chances for success
- Use the Customer Development method to bring your business idea to life
- Incorporate the Business Model Canvas as the organizing principle for startup hypotheses
- Identify your customers and determine how to "get, keep and grow" customers profitably
- Compute how you'll drive your startup to repeatable, scalable profits.

The Startup Owners Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

Thousands of years, hundreds of generations, and countless hours of research; men have been trying to figure out the inner workings of the female mind. Now after all this time wishing women came with an instruction manual, it's finally here. Everything man knows about women and how their mind works are contained in these pages. Regrettably, after all this time, men still haven't figured out squat about women. That's why the pages of this book are mostly blank. But fear not, that just

means you will have plenty of room in every chapter to write down what you learn about the woman in your life. This book offers multiple uses. 1) This can be given as a gift, providing a subtle hint to a man you know that is not as knowledgeable as he thinks. 2) Women, you can fill in the pages yourself. What better gift to give a man than the customized manual to how your mind works. 3) Men can use their keen observational and problem-solving skills as they expertly write down everything there is to know about how and why the woman in their life thinks and behaves the way they do. Great for men who are just starting to date, in a long-term relationship, engaged, or married. It's never too early or too late to give a man the knowledge and information that has been searched for over thousands of years.
