The midtwenties through the midthirties can be a time of difficult transition: the security blankets of college and parents are gone, and it's suddenly time to make far-reaching decisions about career, investments, and adult identity. When author Christine Hassler experienced what she calls the "twenties triangle", she found that she was not alone. In fact, an entire generation of young women is questioning their choices, unsure if what they've been striving for is what they really want. They're eager to set a new course for their lives, even if that means giving up what they have. Hassler herself left a fast-moving career that wasn't right for her and instead took the risk of starting her own business. Now, based on her own experience and interviews with hundreds of women, she shares heartfelt stories on issues from career to parents to boyfriends to babies. Yet she also provides practical exercises to enable today's woman to chart a new direction for her life.

Surrounded by possibility but unsure of your direction? You're not alone. If you're in your twenties, you're likely feeling the combination of the excitement of this defining decade and the pressure to figure out your entire life. The thrill of newfound independence and opportunity can be quickly squelched by worry,

disillusionment, or disappointment. Like thousands of other twenty somethings, you may have experienced what life coach and quarter-life expert Christine Hassler calls an “Expectation Hangover?.” This manifesto explores the all-important questions and life choices of these turbulent yet exciting years. Twenty somethings may commiserate about the challenges they face, but few resources offer practical lessons or suggestions. In these pages, quarter-life men and women tell their stories, sharing their successes and failures, along with their frustrations and realizations. The author’s insightful commentary and “take away” suggestions provide the tools and skills you need to create change and direction in your life. You’ll recognize and articulate your personal goals, paving the way to what you truly want.

'Twenty Something' introduces us to Jack Lancaster, who, at only 25 is far too young to be having a mid-life crisis, but who's going to have a pretty good shot at it anyway.

Being 23 is always crazy. But being 23 right now? It can feel like living an inch under the apocalypse. This is a response to that conversation young 20somethings keep having at happy hour, over FaceTime, alone in their brain: I don't know what I'm doing. It's all so crazy. My job's fine, I guess. I want to move. I want a different life, but I'm not sure how to change it and even if I could, to what?Hindsight 20/Something is a chronicle of quarter-life crises--stories of moving to the midwest

and losing a lover, losing your mind and changing your pronouns, renting a house with a urinal in the living room, coming out, moving back in with your parents. It's a book-shaped living room of honest friends--two nurses, an architect, a med student, two poets, a teacher, a software engineer, the depressed, the wandering, the anxious--all in their 20s. All here telling you that it's probably not okay right now. And that's okay. Austin Beaton is a poet essayist twenty-something who studied regret at the University of Oregon, where he was a finalist for the Walter and Nancy Kidd Memorial Writing Competition in Poetry. His work has appeared in Boston Accent, Porridge Magazine, Angel City Review and elsewhere. He lives near the Pacific Ocean and gives nicknames.

When our expectations are met and things go according to plan, we feel a sense of accomplishment; we feel safe, in control, and on track. But when life does not live up to our expectations, we end up with an Expectation Hangover. This particular brand of disappointment is profoundly uncomfortable and can cost us valuable time and energy if not treated and leveraged effectively. Christine Hassler has broken down the complex and overwhelming experience of recovering from disappointment into a step-by-step treatment plan. This book reveals the formula for how to process Expectation Hangovers on the emotional, mental, physical, and spiritual levels to immediately ease suffering. Instead of wallowing in regret, self-recrimination, or anger, we can see these experiences as catalysts for profound transformation and doorways that open to possibility. Often it is only when life

throws us a curveball (or several) that we look in a different direction and make room for the kinds of unexpected things that lead more directly to a life we love. By the time you finish this book, you'll understand why your Expectation Hangover happened and have your own treatment plan — a clear course of action to pursue your goals while preventing future disappointment.

While the midlife crisis has been thoroughly explored by experts, there is another landmine period in our adult development, called the quarterlife crisis, which can be just as devastating. When young adults emerge at graduation from almost two decades of schooling, during which each step to take is clearly marked, they encounter an overwhelming number of choices regarding their careers, finances, homes, and social networks. Confronted by an often shattering whirlwind of new responsibilities, new liberties, and new options, they feel helpless, panicked, indecisive, and apprehensive. Quarterlife Crisis is the first book to document this phenomenon and offer insightful advice on smoothly navigating the challenging transition from childhood to adulthood, from school to the world beyond. It includes the personal stories of more than one hundred twentysomethings who describe their struggles to carve out personal identities; to cope with their fears of failure; to face making choices rather than avoiding them; and to balance all the demanding aspects of personal and professional life. From "What do all my doubts mean?" to "How do I know if the decisions I'm making are right?" this book compellingly addresses the hardest questions facing young adults today.

changers and anyone passionate about getting unstuck, pursuing work that matters, and changing the world.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and,

unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.
