This colourful guide will introduce you to the fundamentals of horticulture, whether you are taking a Level 2 RHS, City and Guilds or BTEC course, are a keen amateur or seasoned gardener. Written in a clear and accessible style, this book covers the principles that underpin growing plants for the garden and on the allotment, with reference to how these are tackled by professionals. With highlighted definitions, key points, and illustrated in full colour, this book will be a useful companion as you progress in the study and practice of horticulture. Complete with a companion website which includes extended horticultural information, questions and exercises to test your knowledge, syllabus cross-referencing and downloadable tutor and student support materials. Available at [www.routledge.com/cw/adams](http://www.routledge.com/cw/adams)

Essential reading for all studying horticulture and keen gardeners. This clear introduction to the principles underlying the practical applications of horticulture opens up the excitement of growing plants and garden development without readers wading through complex information. Written by a team of highly motivated and experienced horticultural tutors, the text supports the newly restructured RHS Level 2 qualifications with related Level 3 topics in boxes and signposting to Level 4 topics, together with other horticultural qualifications at these levels. Full colour images tied closely to the text and practical case study boxes inspire readers by

making topics relevant to their own horticultural experiences. A comprehensive glossary helps build confidence in the use of classical horticulture language as well as new developing terms, and end-of-chapter questions encourage readers to apply what they have learnt. Extensive online supporting material includes mind maps showing the relationship of topics and aiding students in revision.

'RHS Small Garden Handbook...show[s] the process of planning, planting and maintaining an outdoor space that will lift your heart every time you step outside.' - The Independent  
'Clear and practical principles of design' - BBC Gardens Illustrated  
A garden offers invaluable space for relaxing entertaining, and, above all, enjoying the huge pleasure of growing your own flowers, shrubs, trees, and crops. However, a small garden can present challenges to even the most experience gardener: it may be overlooked, which can impact upon your privacy; there may be more shade than you would like; and it may not be immediately obvious how to create a space that is both multifunctional and beautiful. RHS Small Garden Handbook provides an all-in-one guide for small space gardeners and draws on the experience in growing, planting, landscaping and design for which the RHS is world famous. It begins by explaining how to assess your plot so that you are aware of the soil, orientation, microclimate, existing materials and proportions that you have to work with, before revealing the principles of good design. Showing how your decisions on layout, colour and texture will affect the finished design and what tricks can be played to create a greater sense of space - with everything from expert design advice on boundaries, hedges and fences to clever ideas for containers and storage - every gardener will gain confidence

From the RHS comes this celebration of the garden, spanning the centuries and the globe. From the Garden of Eden to small backyards, from scented memories to bonfires and neighbours' rights, from suggestive slugs to paranoid palm-house gardeners, the poems burst out in a biodiversity of fun, exotic beauty and earthy philosophy. There's something for everyone, with a glorious array of gardening classics, perennial favourites and more recent contributions from Dorothy Parker, Sylvia Plath and John Agard. Each poem is illustrated with a botanical print, a hand-coloured or black and white engraving, or a watercolour drawing - all from the remarkable collection of botanical art at the Royal Horticultural Society's Lindley Library, acknowledged as the world's finest horticultural library. Together they create a colourful collection to invigorate gardening enthusiasts, delight landscape-lovers and inspire armchair gardeners everywhere.

I am finishing a business handbook for small horticultural companies; landscapers, nurseries, garden centers, design firms, college horticultural students, educators, and those involved in horticultural services. This book is a compilation of 38 years running an award winning landscape design, construction, and maintenance firm in Southern New England. Topics covered include developing a mission, completing a business plan, establishing a brand, marketing tips, creating an effective estimating and job costing system, how to attract, hire, and fire employees, computerizing for efficiencies, the importance of leadership, increasing sales, management tips, and the future of horticulture. The handbook contains proven forms, formulas, and templates that the reader can readily adopt and adapt to their company. An extensive bibliography and sources for additional information are included. Essential lessons learned from Wood River Evergreen,s experiences are summarized at the end of each chapter giving the reader practical advice that can be quickly incorporated into the operation of their firm. An easy reading format and comprehensive content will help this handbook to assist new companies just starting and established firms trying to improve their financial performance.
