The broad perspective, multidisciplinary approach of the second edition makes it invaluable in the counselling context at any level. It is comprehensive enough for full-time counsellors and students but it is also a resource for health care professionals for whom counselling is an intrinsic component of their practice.

"This book provides a very good introduction to the key concepts and theories that inform and frame the current psychotherapeutic and counselling landscape. Each author has written on a selection of basic concepts as they are approached in their preferred therapeutic modality, resulting in an exciting and inclusive overview of both old and contemporary psychotherapeutic thought. In addition, each author is mindful of the importance of a critical appraisal of the various concepts and theories. Thus, this book will be extremely useful both for trainees and practitioners." Dr Anastasios Gaitanidis, Senior Lecturer, University of Roehampton, London, UK "As well as being an invaluable source of knowledge about all aspects of counselling and psychotherapy, this book is a real pleasure to read. The authors have been able to capture the essence of ideas, traditions and key figures in a way that is accessible and a consistent source of delight and illumination. Highly recommended for anyone wishing to expand their psychotherapeutic horizons." John McLeod, Emeritus Professor of Counselling, University of Abertay Dundee, UK "This book does what it says on the tin, it highlights the key concepts and theories in the field of counselling and psychotherapy. It is a systematic and encyclopaedic voyage of all the central constructs in the field. It is very well written, snappy and thorough, but more important, it serves a vital need of putting in one place all the theories and concepts needed by anyone interested in counselling and psychotherapy." Cary L. Cooper, CBE, Professor of Organizational Psychology and Health, Lancaster University, UK and President of BACP "This is an invaluable guide for anyone wanting easily accessible information about counselling theory and practice. It will be as useful to trainees sitting as counsellors, as to experienced practitioners wanting to update their knowledge on the latest thinking." Tim Bond, University of Bristol, UK This helpful book offers a concise overview of core concepts within the four dominant approaches to counselling and psychotherapy: psychodynamic, humanistic-existential, cognitive behavioural and integrative. The book aims to assist you in developing your critical thinking and essay writing skills and includes: Over 140 entries, each between 500 and 1200 words Critical and engaging discussions of core concepts Biographical sketches of leading theorists, including: Freud, Jung and Rogers Using the popular alphabetical format, Key Concepts in Counselling and Psychotherapy is an ideal first source for students with an essay on counselling theory to write, a case study to analyse, a belief or assumption to challenge, or a question to explore. It will also appeal to practitioners or academics wanting to refresh their knowledge of theory and research.

Covering the theory and practice of counselling, this reference book presents a number of topics on counselling including the psychology and skills involved. The A-Z format aims to make the book accessible to many different health care professionals.

Developed for helping professionals, Counseling Theory and Practice explains what it means to be an effective helper, discusses foundations of classic counseling and psychotherapy theories, provides an overview of emerging theories, and gives students the opportunity to develop their own approaches to counseling and psychotherapy practice. The book is organized into four primary sections, each addressing theoretical schools. Section 1 explores psychodynamic approaches, including psychoanalysis, Jungian therapy, and Adlerian therapy. Section 2 is devoted to existential-humanistic approaches such as existential therapy, Gestalt therapy, and person-centered counseling, while Section 3 discusses cognitive-behavioral approaches, including behavior therapy, cognitive behavior therapy, rational-emotive behavior therapy, and reality therapy. Section 4 describes post-modern therapies and examines the relatively new approaches of narrative therapy, solution-focused brief therapy, and relational cultural therapy, a form of feminist therapy. The final chapter explores a number of more recent and emerging theories. In support of the textbook, Counseling Theory and Practice features a Cognella Active Learning component that provides students with videos, reflection exercises, PowerPoint slideshows, flashcards, and quizzes in a digital environment. These additional materials give students an accessible way to study outside of the classroom in their own time and at their own pace. Informative and engaging, Counseling Theory and Practice is well-suited to courses for both pre-service professionals and those already in the field. Organized around the latest CACREP standards, Counseling Theory: Guiding Reflective Practice, by Richard D. Parsons and Najjian Zhang, presents theory as an essential component to both counselor identity formation and professional practice. Drawing on the contributions of current practitioners, the text uses both classical and cutting-edge theoretical models of change as lenses for processing client information and developing case conceptualizations and intervention plans. Each chapter provides a snapshot of a particular theory/approach and the major thinkers associated with each theory as well as case illustrations and guided practice exercises to help readers internalize the content presented and apply it to their own development as counselors.

Now in its fifth edition and with endorsement from the Institute of Counselling, this key text continues to be of major importance to practitioners and students of counselling alike. Using the successful A-Z format, the author gives a detailed overview of both common and less known theories of counselling. Practical examples, further reading suggestions and cross-references ensure that this comprehensive text is accessible and engaging. This well-respected text is the perfect resource for students, Counsellors in practice and as a useful reference tool for healthcare professionals for whom counselling in an intrinsic part of daily practice.

Contemporary Theory and Practice in Counseling and Psychotherapy by Howard E. A. Tinsley, Suzanne H. Lease, and Noelle S. Giffin Wiersma is a comprehensive, topically arranged text that provides a contemporary account of counseling theories as practiced by internationally acclaimed experts in the field. Each chapter covers the way mindfulness, strengths-based positive psychology, and the common factors model is integrated into the theory. A special emphasis on evidence-based practice helps readers prepare for their work in the field.

This text provides the beginning counseling student with a comprehensive overview and discussion of the practical application of career counseling skills. Based on the view that counselors must be prepared in a holistic manner, it covers the historical and theoretical foundations of career counseling, the skills and techniques needed for career counseling, and contextual perspectives on career and lifestyle planning. Important material that is often overlooked in introductory texts is included, such as career and lifestyle planning with clients in mental health, rehabilitation, and couples and family counseling settings; gender issues; and working with LGBT and minority clients. Throughout the text, case studies, informational sidebars, and experiential activities make for a more engaging learning experience and encourage additional contemplation of chapter

content. This new edition features new, updated, and expanded content throughout; the division of career counseling in schools into separate chapters for K-8th grade, high school, and college, including traditional, hybrid, and online campuses; and an online instructor's manual with student resources, offering material to enhance the pedagogical features of the text.
