Affirmative action as a practice was partially upheld by the Supreme Court in *Grutter v. Bollinger* (2003), while the use of racial quotas for college admissions was concurrently ruled unconstitutional by the Court in *Gratz v. Bollinger* (2003). Affirmative action often gives rise to controversy in American politics.

Action programmes in a range of countries around the world. It discusses how such programmes came about and how they have been implemented, and examines their effectiveness. Throughout it explores how far affirmative action programmes reinforce ethnic identities and thereby contribute to division and conflict. The countries covered are India, the United States, South Africa, Northern Ireland, Brazil, Malaysia and Fiji.

Across the developmental spectrum, the prospects and problems of 'affirmative action' are increasingly important issues facing multi-ethnic countries. Drawing on philosophy, economics and sociology, the contributors explore the merits and demerits of affirmative action, and explain why affirmative action may be needed in countries facing large inequalities across ethnic, religious or racial groups. They analyse the origin, nature and consequences of affirmative action in Brazil, South Africa, the United States, Malaysia, Northern Ireland and Nigeria. Evaluating alternatives, they seek to provide guidance on the design of policies in different circumstances, with the aim of reducing horizontal inequalities, while minimising possible negative consequences.

While affirmative action has helped lessen inequality, it has not removed ethnic tension as initially envisaged. The ultimate question

Get Free Affirmative Action Ethnicity And Conflict Routledge Malaysian Studies

is whether affirmative action has led to a fairer, more just and peaceful society or whether it has simply worsened the existing situation. The book takes the view that the answer is a mixed one and reflects the complexity of the situation, rather than one which is simply positive or negative.

The controversial work of Amy Chua argues that, as rapid modernization, industrialization, technological change and globalization bring about fundamental changes in national, ethnic and class identities, especially in developing countries, there is a danger that the laissez-faire capitalist system will cause serious racial conflagration, especially in societies where there is ethnic minority market dominance, combined with ethno-nationalist-type politicians who mobilize support from ethnic majority communities by drawing attention to inequalities in wealth distribution. This controversial work goes on to argue for an authoritarian political system, with curbs against the corporate expansion of enterprises owned by ethnic minorities, until parity in equity ownership among all communities is achieved. This book tests the assumptions behind these arguments, discussing ethnic communities, identity,

Get Free Affirmative Action Ethnicity And Conflict Routledge Malaysian Studies

Economy, society and state, and the links between them, in a range of countries in East Asia, Southeast Asia, and the Pacific, and diaspora communities of Asian peoples in the West. It demonstrates that identity transformation occurs as generations of minority communities succeed each other, that old discourses of fixed origins which are assumed to bind ethnic communities into cohesive wholes do not apply, that there are very extensive inter-linkages in the daily activities of people of different ethnic and religious backgrounds, that affirmative action-type policies along racial lines can undermine overall societal cohesion, and that there is no case for limiting democracy until economic equity is achieved. This is a rich, important book, with huge implications for economic development and for states throughout the world as multi-ethnic societies world-wide become more extensive and more complicated.

In the revised and updated second edition of this comprehensive book, the first anthology to integrate social-psychological literature on prejudice with sociological and historical investigations, contributors introduce readers to the key debates and principal writings on racial and ethnic conflict, representing conservative, liberal, and radical p

The Soviet Union was the first of Europe's

Get Free Affirmative Action Ethnicity And Conflict Routledge Malaysian Studies

multiethnic states to confront the rising tide of nationalism by systematically promoting the national consciousness of its ethnic minorities and establishing for them many of the institutional forms characteristic of the modern nation-state. In the 1920s, the Bolshevik government, seeking to defuse nationalist sentiment, created tens of thousands of national territories. It trained new national leaders, established national languages, and financed the production of national-language cultural products. This was a massive and fascinating historical experiment in governing a multiethnic state. Terry Martin provides a comprehensive survey and interpretation, based on newly available archival sources, of the Soviet management of the nationalities question. He traces the conflicts and tensions created by the geographic definition of national territories, the establishment of dozens of official national languages, and the world's first mass "affirmative action" programs. Martin examines the contradictions inherent in the Soviet nationality policy, which sought simultaneously to foster the growth of national consciousness among its minority populations while dictating the exact content of their cultures; to sponsor national liberation movements in neighboring countries, while eliminating all foreign influence on the Soviet Union's many diaspora nationalities. Martin explores the political logic of Stalin's policies as he responded to

Get Free Affirmative Action Ethnicity And Conflict Routledge Malaysian Studies

a perceived threat to Soviet unity in the 1930s by re-establishing the Russians as the state's leading nationality and deporting numerous "enemy nations."

Defines the field of ethnic studies and explores its methodologies.

Contradictory forces are at play at the close of the twentieth century. There is a growing closeness of peoples fueled by old and new technologies of modern aviation, digital-based communications, new patterns of trade and commerce, and growing affluence of significant portions of the world's population. Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands. These developments give real meaning to the notion of a global village. Peoples of the world are growing closer in new and increasingly important ways. Nonetheless, there are disturbing signs of a growing awareness of ethnic differences in all parts of the worldthe United States includedand a concomitant rise in ethnic-based conflicts, many of them extraordinarily violent in nature. Fear, resentment, intolerance, and mistreatment of the "other" abound in world news accounts. Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village, but its emergence in the post-cold war era internationally and the post-civil

Get Free Affirmative Action Ethnicity And Conflict Routledge Malaysian Studies

rights era in the United States raises significant and compelling questions. Why are such conflicts occurring now? How do analysts explain these developments? The essays in *Race and Ethnicity in Comparative Perspective* lucidly explore some of the complexities of the persistence and re-emergence of race and ethnicity as major lines of divisiveness around the world. Contributors analyze manifestations of race-based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings. Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity, nationalism, identity, and ideology. The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America's changing problem of race. *Race and Ethnicity in Comparative Perspective* is a timely, thought-provoking volume that will be of immense value to ethnic studies specialists, African American studies scholars, political scientists, historians, and sociologists.
