Xaga sushi is a very nice sushi restaurant that is located in Merrick. The rolls are all fresh and very big sized. The staff was very friendly and accommodating. This is a sister restaurant to Fhoos in Rockville Center and the menus are very similar which is great because I enjoyed all the rolls. I will definitely be coming back.

The planet Vekun is at war and one of its ships is so badly damaged in a battle, that it seek refuge on the neutral but forbidden planet Zoen. She is also publicly humiliated by him. Her sister Mary meanwhile has found a Vekun man who has fantasies about living on a female dominated planet and teaches him how to serve a Zoen woman's sexual needs. Contact is made between the two planets and Captain Ashe learns that he is to be tried and executed when he returns to Vekun because he disobey orders for coming to a forbidden planet. Even though he saved his crew by doing this. So Shirley wants to make his time on Zoen as happy as possible, before he is shipped off to await trial on his home planet. But in the world of interplanetary politics there is an unexpected twist at the end.

A rigorous but nontechnical treatment of major topics in urban economics. Lectures on Urban Economics offers a rigorous but nontechnical treatment of major topics in urban economics. To make the book accessible to a broad range of readers, the analysis is diagrammatic rather than mathematical. Although nontechnical, the book relies on rigorous economic reasoning. In contrast to the cursory theoretical development often found in other textbooks, Lectures on Urban Economics offers thorough and exhaustive treatments of models relevant to each topic, with the goal of revealing the logic of economic reasoning while also teaching urban economics. Topics covered include reasons for the existence of cities, urban spatial structure, urban sprawl and land-use controls, freeway congestion, housing demand and tenure choice, housing policies, local public goods and services, pollution, crime, and quality of life. Footnotes throughout the book point to relevant exercises, which appear at the back of the book. These 22 extended exercises (containing 125 individual parts) develop numerical examples based on the models analyzed in the chapters. Lectures on Urban Economics is suitable for undergraduate use, as background reading for graduate students, or as a professional reference for economists and scholars interested in the urban economics perspective.

Blue Sky God interprets some new scientific theories with blue sky thinking to bring radical insights into God, Jesus and humanity, drawing also on some deep wells from the past in the writings of the early Christians. In an accessible style, it looks at science research and theories in areas such as quantum physics and consciousness, epigenetics, morphic resonance and the zero point field. From there, seeing God as the compassionate consciousness at the ground of being, it draws together strands to do with unitive consciousness and the Wisdom way of the heart. Throughout, it seeks to encourage an evolution in understanding of the Christian message by reinterpreting much of the theological language and meaning that has become 'orthodoxy' in the West. In doing so, it challenges many of the standard assumptions of Western Christianity. It outlines a spiritual path that includes elements from all of the world's great religions, is not exclusive, and yet has a place of centrality for Jesus the Christ as a Wisdom teacher of the path of transformative love.
