From Snow White to Shrek, from Fred Flintstone to SpongeBob SquarePants, the design of a character conveys personality before a single word of dialogue is spoken. Designing Characters with Personality shows artists how to create a distinctive character, then place that character in context within a script, establish hierarchy, and maximize the impact of pose and expression. Practical exercises help readers put everything together to make their new characters sparkle.

It's been a decade since Lynne Dorfman and Rose Cappelli wrote the first edition of Mentor Texts and helped teachers across the country make the most of high-quality children's literature in their writing instruction. In the second edition of this important book Lynne and Rose show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Lynne and Rose offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. Rose and Lynne write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

This guide offers helpful advice on how teachers, administrators, and career advisers in science and engineering can become better mentors to their students. It starts with the premise that a successful mentor guides students in a variety of ways: by helping them get the most from their educational experience, by introducing them to and making them comfortable with a specific disciplinary culture, and by offering assistance with the search for suitable employment. Other topics covered in the guide include career planning, time management, writing development, and responsible scientific conduct. Also included is a valuable list of bibliographical and Internet resources on mentoring and related topics.

Mentorship is a catalyst capable of unleashing one's potential for discovery, curiosity, and participation in STEM and subsequently improving the training environment in which that STEM potential is fostered. Mentoring relationships provide developmental spaces in which students' STEM skills are honed and pathways into STEM fields can be discovered. Because mentorship can be so influential in shaping the future STEM workforce, its occurrence should not be left to chance or idiosyncratic implementation. There is a gap between what we know about effective mentoring and how it is practiced in higher education. The Science of Effective Mentorship in STEM studies mentoring programs and practices at the undergraduate and graduate levels. It explores the importance of mentorship, the science of mentoring relationships, mentorship of underrepresented students in STEM, mentorship structures and behaviors, and institutional cultures that support mentorship. This report and its complementary interactive guide present insights on effective programs and practices that can be adopted and adapted by insitutions, departments, and individual faculty members.

When he has a dream about a future Earth devastated by pollution, Walter begins to understand the importance of taking care of the environment.

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END:it Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

You've researched your character extensively, tailored her to your audience, sketched hundreds of versions, and now you lean back content as you gaze at your final character model sheet. But now what? Whether you want to use her in an animated film, television show, video game, web comic, or children's book, you're going to have to make her perform. How a character looks and is costumed starts to tell her story, but her body language reveals even more. Character Mentor shows you how to pose your character, create emotion through facial expressions, and stage your character to create drama. Author Tom Bancroft addresses each topic with clear, concise prose, and then shows you what he really means through commenting on and redrawing artwork from a variety of student "apprentices." His assignments allow you to join in and bring your drawing to the next level with concrete techniques, as well as more theoretical analysis. Character Mentor is an apprenticeship in a book. Professional artists from a variety of media offer their experience through additional commentary. These include Marcus Hamilton (Dennis the Menace), Terry Dodson (X-Men), Bobby Rubio (Pixar), Sean "Cheeks" Galloway (Spiderman animated), and more. With a foreword by comicbook artist Adam Hughes, who has produced work for DC, Marvel Comics, Lucasfilm, Warner Bros. Pictures, and other companies.

Traces the author's experiences as an illegal child immigrant, describing her father's violent alcoholism, her efforts to obtain a higher education, and the inspiration of Latina authors.

A heartwarming story about the new girl in school, and how she learns to appreciate her Korean name. Being the new kid in school is hard enough, but what happens when nobody can pronounce your name? Having just moved from Korea, Unhei is anxious about fitting in. So instead of introducing herself on the first day of school, she decides to choose an American name from a glass jar. But while Unhei thinks of being a Suzy, Laura, or Amanda, nothing feels right. With the help of a new friend, Unhei will learn that the best name is her own. From acclaimed creator Yangsook Choi comes the bestselling classic about finding the courage to be yourself and being proud of your background.
