developments in the management of rectal cancer, including the anatomic and pathologic basis, staging tools, surgical concepts including fast-track surgery and laparoscopic resection, functional outcome after surgery and the role of radio- and chemotherapy. This monograph summarizes this meeting and gives an extensive overview of the current concepts in management of rectal cancer.

This unique book addresses breast cancer in the broad context of the individual, the larger family, and community experiences. Comprehensive chapters on prevention, screening, and treatments cover current research from a nursing perspective. Survivorship, choice and emotional resolution are explored and 'Story as a Way of Knowing' offers insight into the experiences of long-term survivors. Each chapter is comprehensive in its scope of history and current issues and suggests areas of future research.

Understanding the nuances associated with the various neoplasm's that comprise lymphomas can be a challenge to nursing professionals. This book helps broaden the awareness of the biology, classification, and treatment options available to patients with lymphoma. Contemporary Issues in Lymphoma provides an overview of lymphoid malignancies (including epidemiology and etiology), the immune system and lymphoid malignancies, and the cytogenetics of lymphoid malignancies.
