Solving word problems requires both strategy and skill. When confronted with a problem, students need to figure out how to solve the problem and then solve it! The 250 exercises in each book help students learn a variety of strategies for solving problems as well as grade-specific math skills.

Solving word problems requires both strategy and skill. When confronted with a problem, students need to figure out how to solve the problem and then solve it! The 250 exercises in each book help students learn a variety of strategies for solving problems as well as grade-specific math skills.

Solving word problems requires both strategy and skill. When confronted with a problem, students need to figure out how to solve the problem and then solve it! The 250 exercises in each book help students learn a variety of strategies for solving problems as well as grade-specific math skills.

Quick, easy, effective activities support standards and help students improve skills they need for success in testing.

Students need more than basic math skills to solve problems; they must also use logical and abstract thinking to discover how to solve problems. The activities in this book do more than provide students with lots of practice solving problems. They give students the tools to apply appropriate strategies to solve problems in a variety of math skill areas.
