~~Dante is now seen as the creator of modern Italian; before The Divine Comedy, the vernacular was so unformed that he is said to have begun writing it in Latin, doubting that it was a fit medium.~~

Once considered the largest and most extensive source of biographies in the English language, The Universal Dictionary of Biography and Mythology contains information on nearly every historical figure, notable name, and important subject of mythology from throughout the world prior to the 20th century. Spanning all fields of human effort-from literature and the arts to philosophy and science-and touching on topics from multiple areas of mythological study, including Norse, Greek, and Roman, this extraordinary reference guide continues to be one of the most thorough and accurate collections of biographical data ever created. Combining mythological and biographical entries into a single, comprehensive list, and incorporating a unique system of indicating pronunciation and orthography, The Universal Dictionary of Biography and Mythology offers readers an unparalleled record of historically significant identities, from the obscure and forgotten newsmakers of yesteryear to the highly celebrated shapers of history that remain influential today. Volume IV (PRO-ZYP) of this exquisite four-volume set includes information on such names as Roman critic and teacher of rhetoric Quintilian, Sir Walter Raleigh, Italian painter Raphael, Socrates, English novelist William Makepeace Thackeray, Ulysses, Leonardo da Vinci, Latin poet Virgil, American inventor Eli Whitney, Xerxes, Mormon priest Brigham Young, and Zeus, as well as sections dedicated to Christian names and disputed or doubtful pronunciations. JOSEPH THOMAS (1811-1891) also wrote A Comprehensive Medical Dictionary, various pronouncing vocabularies of biographical and geographical names, and a system of pronunciation for Lippincott's Pronouncing Gazetteer of the World.

A weekly review of politics, literature, theology, and art.

Milton's Angels is a study of writing - theological, scientific, political, and poetic - about angels in 16th-century and 17th-century Britain. It demonstrates that angels were integral to the Protestant imagination and argues that Paradise Lost is a poem about angels that is both shockingly literal and sublimely imaginative.

Boldrini examines how Dante's literary and linguistic theories helped shape Joyce's radical narrative techniques.

This translation by Tom Simone provides a text that is close to Dante's meter and style as is possible using modern English. In such a way a student gets a feel for the structure and impact of the original, and it could also provide an easy segue to the original Italian. Simone provides an extensive introduction, ample footnotes for references that may not be clear to the reader, and each Canto provides a prose overview of the poetry to follow, all designed to provide the modern student with access to this important work.
