Many families with a child with autism or Asperger Syndrome feel that involvement in the community is not for them. This book sets out to change that, with a rich and varied menu of suggestions for how such families can take full part in community life and support the strengths and interests of their child at the same time. Informal learning experiences can be the key to self-discovery, communication, self-confidence, and even independence for many children on the autism spectrum. Only outside the four walls of school will your child truly discover their own passions, abilities, and social peers. Get Out, Explore, and Have Fun is a guide to what's out there, how to find it, and how to make it work for your family. The book includes hints and tips for involving your family in the right community activities, from sport to science; information on museums, arts organizations and science institutions as venues for an enjoyable and enriching day out for the family; and resources and ideas for helping your child build on their strengths, interests, and preferred learning styles to explore life in the community. Handouts about autism are included, as well as handouts suggesting ways in which organisations and institutions can successfully include young people with autism in their activities. This book will open the door to community inclusion, creative exploration, and social learning.

How does milk help me grow? Where do vitamins come from? Do carrots really strengthen my eyesight? Find out these answers-in Janice VanCleave's Food and Nutrition for Every Kid. To the delight of children, parents, and teachers everywhere, America's favorite science teacher brings a welcome addition to the popular Science for Every Kid series. Through fun, safe, and easy-to-do experiments, Janice VanCleave teaches kids ages eight to twelve all about food and nutrition. Kids can learn about leavening agents by mixing baking soda with vinegar. They'll explore why different sweeteners vary in sweetness, how to use natural food dyes to dye a T-shirt, and what the food pyramid is-plus much more. Each experiment is broken down into a purpose, list of materials, step-by-step instructions, expected results, and explanations that kids can understand. Every project has been tested and can be performed safely and inexpensively using ordinary household materials.

Enter Danny's world. Over thirty and unemployed, without ambitions and absolutely happy. He knows all the movie stars and celebrity writers. His friends play out at sold-out stadiums and walk the catways of Paris and Milan. At least that's what he says. --Discover the secret history of the twentieth century... at least according to the men and women who "think" that lived through it. --Remember that hot and muggy night in 1977 when Debbie Harry, the Spirit of the Seventies and lead singer for Blondie, gave birth to the new Messiah? --The real reasons behind the meteoric rise and fall of the Brit-Pop movement? --History has nothing to do with secret conspiracies and mysterious cabals, but it's probably not the one you read about in school.

Pig the Pug celebrates Halloween in this picture book from #1 New York Times bestselling author-illustrator Aaron Blabey. Pig was a pug and I'm sorry to say, on Halloween night he'd get carried away... Pig, the world's greediest pug, is on the rampage for TREATS! TREATS! TREATS! But don't even think about being stingy with the goodies, because this candy-fueled glutton has some terrible tricks up his sleeve... Rich with author-illustrator Aaron Blabey's signature rhyming text and unforgettable illustrations, Pig the Monster is a laugh-out-loud story that follows the eight previous books in the series (Pig the Pug, Pig the Winner, Pig the Elf, Pig the Star, Pig the Fibber, Pig the Stinker, Pig the Tourist, and Pig the Slob).

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

What good is financial success if it doesn't lead to fulfillment, satisfaction, and happiness? Toine Knipping, the co-founder and CEO of Amicorp, an independent global provider of company secretarial and fiduciary services, tackles that question head-on in this book. Drawing on wisdom from Tantric masters, who said that the fabric of life can provide true and everlasting fulfillment only when all the threads are woven according to the pattern designated by nature, he reveals how to: Control your wealth and use it well. Encourage and empower employees to give back. Embrace high ethical standards and community involvement. Knipping also describes charitable projects, impact investments, and social enterprises drawn from his personal experience to provide context and show the elements involved in any one investment. From setting up an outsourcing business in India, to starting a social enterprise in South Africa to protect endangered species, to establishing a daycare center in Curacao, you'll be inspired to give back with the lessons in Tantric impact.

Two bugs, Ralph and Flora, try to divide thirteen beans so that the unlucky thirteenth bean disappears, but they soon discover that the math is not so easy.

From Super Bowl champion and literacy crusader Malcolm Mitchell comes an exciting new story that shows even reluctant readers that there is a book out there for everyone! Meet Henley, an all-around good kid, who hates to read. When he's supposed to be reading, he would rather do anything else. But one day, he gets the scariest homework assignment in the world: find your favorite book to share with the class tomorrow. What's a kid to do? How can Henley find a story that speaks to everything inside of him? Malcolm Mitchell, bestselling author of The Magician's Hat, pulls from his own literary triumph to deliver another hilarious and empowering picture book for readers of all abilities. Through his advocacy and his books, Malcolm imparts the important message that every story has the potential to become a favorite.
