Teaching the Elephant to Dance is a practical, hands-on guide for creating the right change in any organization, large or small, corporate or governmental, manufacturing or service based. Filled with illuminating case studies, it shows how to devise new corporate visions and strategies... how to overcome inertia .. and how to form labor-management partnerships. Clear, authoritative, practical and inspiring, Teaching the Elephant to Dance provides a step-by-step guide for making the impossible happen.

A haunting dream that will not relent pulls author Kent Nerburn back into the hidden world of Native America, where dreams have meaning, animals are teachers, and the " old ones " still have powers beyond our understanding. In this moving narrative, we travel through the lands of the Lakota and the Ojibwe, where we encounter a strange little girl with an unnerving connection to the past, a forgotten asylum that history has tried to hide, and the complex, unforgettable characters we have come to know

from *Neither Wolf nor Dog* and *The Wolf at Twilight*. Part history, part mystery, part spiritual journey and teaching story, *The Girl Who Sang to the Buffalo* is filled with the profound insight into humanity and Native American culture we have come to expect from Nerburn's journeys. As the American Indian College Fund has stated, once you have encountered Nerburn's stirring evocations of America's high plains and incisive insights into the human heart, "you can never look at the world, or at people, the same way again."

On February 12, 2009, about 2217 eastern standard time, Colgan Air, Flight 3407, a Bombardier DHC-8-400, on approach to Buffalo-Niagara International Airport, crashed into a residence in Clarence Center, New York, 5 nautical miles northeast of the airport. The 2 pilots, 2 flight attendants, and 45 passengers aboard the airplane were killed, one person on the ground was killed, and the airplane was destroyed. The National Transportation Safety Board determined that the probable cause of this accident was a pilot's error.

On the evening of December 4, 1978, Rocky Mountain Airways Flight 217 departed Steamboat Springs, Colorado bound for Denver with twenty-two souls on board. Less than an hour later, the flight was forced down on Buffalo Pass at an altitude of 10,500 feet when it encountered severe icing conditions and downdrafts created by the winds of a mountain wave. The tragic accident triggered one of the most intense search and rescue efforts in Rocky Mountain history. This true story is told in the words of the courageous passengers and crew- who found themselves struggling to survive the arctic type blizzard conditions with no hope of immediate help-and the heroic search and rescue personnel who risked lives to save lives. Led by an elite Civil Air Patrol unit, and civilian volunteers, the search and rescue effort is considered one of the most successful in the organization's history.

**A NEW YORK TIMES NOTABLE BOOK** It is 1901 and Buffalo, New York, stands at the center of the nation's attention as a place of immense wealth and sophistication. The massive hydroelectric power development at nearby Niagara Falls and the grand Pan-American Exposition promise to bring the Great Lakes "city of light" even more repute. Against this rich historical backdrop lives Louisa Barrett, the attractive, articulate headmistress of the Macaulay School for Girls. Protected by its powerful all-male board, "Miss Barrett" is treated as an equal by the men who control the life of the city. Lulled by her unique relationship with these titans of business, Louisa feels secure in her position, until a mysterious death at the power plant triggers a sequence of events that forces her to return to a past she has struggled to conceal, and to question everything and everyone she holds dear. Both observer and participant, Louisa Barrett guides the reader through the culture and conflicts of a time and place where immigrant factory workers and nature conservationists protest violently against industrialists, where presidents broker politics, where wealthy "Negroes" fight for recognition and equality, and where women struggle to thrive in a system that allows them little freedom. Wrought with remarkable depth and intelligence, *City of Light* remains a work completely of its own era, and of ours as well. A stirring literary accomplishment, Lauren Belfer's first novel marks the debut of a fresh voice for the new millennium and heralds a major publishing event.

relationship to the evolving interplay between nature, industry, and architecture. The essays examine Buffalo's architectural heritage in rich context: the Second Industrial Revolution; the City Beautiful movement; world's fairs; grain, railroad, and shipping industries; urban renewal and so-called white flight; and the larger networks of labor and production that set the city's economic fate. The contributors pay attention to currents that connect contemporary architectural work in Buffalo to the legacies established by its esteemed architectural founders: Richardson, Olmsted, Adler, Sullivan, Bethune, Wright, Saarinen, and others. *Buffalo at the Crossroads* is a compelling introduction to Buffalo's architecture and developed landscape that will frame discussion about the city for years to come.
