The chase is on - and Amelia Peabody and Co. are in the thick of it! 1922 - convinced that the tomb of the little-known King Tutankhamon lies somewhere in the Valley of the Kings, Emerson has tried to persuade his rivals Lord Carnavon and Howard Carter to hand over their digging rights in the valley to him - but they resist. So back in Luxor an incident at the hotel the clan is staying in turns their gifts for digging in another direction. Emerson and Ramses are lured into a trap by a group of villains who demand answers to the mysterious question, 'Where is he?'. Their curiosity piqued, the duo is determined to uncover who 'he' is and why 'he' should be so important.

A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of

appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, Hitler's War captures the beginning of a very different World War II—with a very different fate for our world today. BONUS: This edition contains an excerpt from Harry Turtledove's *The War that Came Early: West and East*.

They rowed hard, away from the battleships and the bombs. Water sprayed over them. The rowboat pitched one way and then the other. Then, before his eyes, the Arizona lifted up out of the water. That enormous battleship bounced up in the air like a rubber ball and split apart. Fire burst out of the ship. A geyser of water shot into the air and came crashing down. Adam was almost thrown out of the rowboat. He clung to the seat as it swung around. He saw blue skies and the glittering city. The boat swung back again, and he saw black clouds, and the Arizona, his father's ship, sinking beneath the water. -- from *A Boy at War* "He kept looking up, afraid the planes would come back. The sky was obscured by black smoke....It was all unreal: the battleships half sunk, the bullet holes in the boat, Davi and Martin in the water." December 7, 1941: On a quiet Sunday morning, while Adam and his friends are fishing near Honolulu, a surprise attack by Japanese bombers destroys the fleet at Pearl Harbor. Even as Adam struggles to survive the sudden chaos all around him, and as his friends endure the brunt of the attack, a greater concern hangs over his head: Adam's father, a navy lieutenant, was stationed on the USS Arizona when the bombs fell. During the subsequent days Adam -- not yet a man, but no longer a boy -- is caught up in the war as he desperately tries to make sense of what happened to his friends and to find news of his father. Harry Mazer, whose autobiographical novel, *The Last Mission*, brought the European side of World War II to vivid life, now turns to the Pacific theater and how the impact of war can alter young lives forever.

In this follow-up to his acclaimed *"A Boy at War,"* Mazer explores what loyalty, friendship, and patriotism mean in a time of war in this story set against the backdrop of World War II.

Son and daughter of diplomats in Cairo, the gentle Serena Pasha and Mark Holt are good-looking and privileged, growing up in a magical world of champagne breakfasts and midnight picnics at the pyramids. Their lives entwined since childhood, they grow ever closer as adults. Yet Serena's hand has been promised not to Mark, but to his brother, Greg. However, as the Second World War speeds closer to Cairo, a terrible accident gives these young lovers a second chance - and with this chance comes terrible dangers. Egypt is threatened not only by the German army but by nationalist forces within Cairo determined to end the British occupation at any cost. The country torn apart, and with enemies on all sides, Mark and Serena's love is tested to the limit.

Honey typically has a complex chemical and biochemical composition that invariably includes complex sugars, specific proteins, amino acids, phenols, vitamins, and rare minerals. It is reported to be beneficial in the treatment of various diseases, such as those affecting the respiratory, cardiovascular, gastrointestinal, and nervous systems, as well as diabetes mellitus and certain types of cancers; however, there is limited literature describing the use of honey in modern medicine. This book provides evidence-based information on the pharmaceutical potential of honey along with its therapeutic applications and precise mechanisms of action. It discusses in detail the phytochemistry and pharmacological properties of honey, highlighting the economic and culturally significant medicinal uses of honey and comprehensively reviewing the scientific research on the traditional uses, chemical composition, scientific validation, and general pharmacognostical characteristics. Given its scope, it is a valuable tool for researchers and scientists interested in drug discovery and the chemistry and pharmacology of honey.

"Engineer Bartley Alexander appears to have a happy life in Boston with a successful career and a beautiful wife. He has been commissioned to design the Moorlock Bridge in Canada, the most important project of his career. With the onset of middle age, however, he grows increasingly restless and discontented, so much so that while in London he recklessly reignites a love affair with the sweetheart of his youth, the Irish actress Hilda Borgoyne. Although the tryst allows Alexander to recapture an element that has been missing from his pedestrian life, the relationship torments his sense of morality and eventually proves disastrous. Alexander's *Bridge* explores the demands of Gilded Age society on the individual, as well as the capacity of the individual to violate his own standards of integrity." "This Willa Cather Scholarly Edition provides a new framework for Cather's debut novel. The novel is edited according to standards set by the Committee for Scholarly Editions of the Modern Language Association and presents the full range of biographical, historical, and textual information now available, complete with illustrations and maps."--BOOK JACKET.

few belongings and leaves Grimsby. Her destination? Denmark, where she will search for her father, Lars Christensen-the golden-haired fisherman her mother fell in love with many years before. The journey will be long-and dangerous for a young girl travelling alone. As Marianne boards the fishing boat that will carry her across the North Sea, she wonders: will Denmark be the fairy-tale land she has dreamt of? Will she find happiness there? Will the father she has never met welcome the arrival of his illegitimate child? And why didn't he return for her mother, as he promised he would?
