The Man with the Iron Heart (released as HHhH in France and Killing Heydrich in Canada) is a 2017 English-language French-Belgian biographical action-thriller film directed by Cédric Jimenez and written by David Farr, Audrey Diwan, and Jimenez. It is based on French writer Laurent Binet's 2010 novel HHhH, and focuses on Operation Anthropoid, the assassination of Nazi leader Reinhard Heydrich ...

HHhH: "Himmlers Hirn heisst Heydrich", or "Himmler's brain is called Heydrich". The most dangerous man in Hitler's cabinet, Reinhard Heydrich was known as the "Butcher of Prague." He was feared by all and loathed by most. With his cold Aryan features and implacable cruelty, Heydrich seemed indestructible—until two men, a Slovak and a Czech recruited by the British secret service, killed him in broad daylight on a bustling street in Prague, and thus changed the course of History. Who were these men, arguably two of the most discreet heroes of the twentieth century? In Laurent Binet's captivating debut novel, we follow Jozef Gabčík and Jan Kubiš from their dramatic escape of Nazi-occupied Czechoslovakia to England; from their recruitment to their harrowing parachute drop into a war zone, from their stealth attack on Heydrich's car to their own brutal death in the basement of a Prague church. A seemingly effortlessly blend of historical truth, personal memory, and Laurent Binet's remarkable imagination, HHhH—an international bestseller and winner of the prestigious Prix Goncourt du Premier Roman—is a work at once thrilling and intellectually engrossing, a fast-paced

novel of the Second World War that is also a profound meditation on the nature of writing and the debt we owe to history. HHHH is one of The New York Times' Notable Books of 2012.

HHhH. Tras este misterioso título se esconde la frase en alemán Himmlers Hirn heisst Heydrich, "el cerebro de Himmler se llama Heydrich". Esto es lo que se decía en las SS de Reinhard Heydrich, jefe de la Gestapo, considerado el hombre más peligroso del Tercer Reich y una de las figuras más enigmáticas del nazismo. En 1942, dos miembros de la Resistencia aterrizan en paracaídas en Praga con la misión de asesinarlo. Después del atentado, se refugian en una iglesia, donde, delatados por un traidor y acorralados por setecientos hombres de las SS, se suicidan. Laurent Binet narra uno de los episodios más conmovedores de la Segunda Guerra Mundial y, posiblemente, de la Historia de la humanidad. Pero tras la narración de esta hazaña empieza otra lucha: la que enfrenta la ficción con la realidad. HHHH es el relato de la desesperada búsqueda de una forma precisa de contar la Historia. Para ello Binet lleva al lector hasta la tormenta de la Segunda Guerra Mundial, a Berlín, Londres y París, a la Praga actual, y en un giro literario de una fuerza inaudita, traslada el régimen nazi hasta el 2010.

'Himmlers Hirn heißt Heydrich- o cérebro de Himmler se chama Heydrich'. A sentença corrente entre os membros da SS permite vislumbrar os horrores vividos pela extinta Tchecoslováquia durante a ocupação nazista, quando o implacável chefe da Gestapo, Reinhard Heydrich, foi nomeado pelo Führer o 'protetor' da Boêmia-Morávia, território incorporado ao III Reich durante a Segunda Guerra Mundial. Heydrich logo se tornou um misto de vice-rei e ditador, com absoluto poder de vida e de morte sobre os tchecos. Prisões em massa, torturas e execuções sumárias passaram a integrar o cotidiano dos habitantes da capital, que apelidaram seu novo senhor de 'o carrasco de Praga'. Esse é o cenário que serve de pano de fundo para que Laurent Binet escreva o romance 'HHhH', em que ficção e realidade se confundem, colocando em evidência a natureza fugidia e multifacetada da verdade histórica. Até 1941, Jan Kubis e Jozef Gabčík não passavam de obscuros sargentos do Exército tchecoslovaco. No entanto, na primavera daquele ano - que marcaria o auge da extensão do império hitlerista -, o governo tchecoslovaco no exílio decide partir para o contra-ataque. As brutalidades cometidas contra a população tcheca seriam vingadas numa ação espetacular, cujo alvo era Reinhard Heydrich. Após uma rigorosa triagem, Gabčík e Kubis são os militares incumbidos dessa missão heroica, na prática uma empreitada suicida.

A Prague, en 1942, deux hommes doivent en tuer un troisième. C'est l'opération "Anthropoïde" : deux parachutistes tchécoslovaques envoyés par Londres sont chargés d'assassiner Reinhard Heydrich, chef de la Gestapo, chef des services secrets nazis, planificateur de la solution finale, "le bourreau de Prague", "la bête blonde", "l'homme le plus dangereux du IIIe Reich". Heydrich était le chef d'Eichmann et le bras droit d'Himmler, mais chez les SS, on disait : "HHhH". Himmlers Hirn heisst Heydrich - le cerveau d'Himmler s'appelle Heydrich. Tous les personnages de ce livre ont existé ou existent encore. Tous les faits relatés sont authentiques. Mais derrière les préparatifs de l'attentat, une autre guerre se fait jour, celle que livre la fiction romanesque à la vérité historique. L'auteur, emporté par son sujet, doit résister à la tentation de romancer. Il faut bien, pourtant, mener l'histoire à son terme.

A stunningly ambitious and entertaining novel that gives us a counter-factual history of the modern world, from the author of the international bestseller HHHH. Binet's best book yet: the work of a major writer just hitting his stride. A delightful counterfactual novel. ***** - Daily Telegraph c.1000AD: Erik the Red's daughter heads south from Greenland 1492: Columbus does not discover America 1531: the Incas invade Europe Freydis is the leader of a band of Viking warriors who get as far as Panama. Nobody knows what became of them... Five hundred years later, Christopher Columbus is sailing for the Americas, dreaming of gold and conquest. Even when captured by Incas, his faith in his superiority and

his mission is unshaken. Thirty years after that, Atahualpa, the last Inca emperor, arrives in Europe. What does he find? The Spanish Inquisition, the Reformation, capitalism, the miracle of the printing press, endless warmongering between the ruling monarchies, and constant threat from the Turks. But most of all, downtrodden populations ready for revolution. Fortunately, he has a recent guidebook to acquiring power - Machiavelli's *The Prince*. It turns out he is very good at it. So, the stage is set for a Europe ruled by Incas and, when the Aztecs arrive on the scene, for a great war that will change history forever. *Civilisations* is a wildly entertaining counterfactual story about the modern world, colonisation, empire-building and the eternal human quest for domination. It is an electrifying novel by one of Europe's most exciting writers. 'What if the 1492 'discovery' of America...alerted the Incas to the existence of a land to the east that might be ripe for conquest?' *Literary Review*

From the prizewinning author of *HHhH*, “ the most insolent novel of the year ” (*L'Express*) Paris, 1980. The literary critic Roland Barthes dies—struck by a laundry van—after lunch with the presidential candidate François Mitterrand. The world of letters mourns a tragic accident. But what if it wasn't an accident at all? What if Barthes was . . . murdered? In *The Seventh Function of Language*, Laurent Binet spins a madcap secret history of the French intelligentsia, starring such luminaries as Jacques Derrida, Umberto Eco, Gilles Deleuze, Michel Foucault, Judith Butler, and Julia Kristeva—as well as the hapless police detective Jacques Bayard, whose new case will plunge him into the depths of literary theory (starting with the French version of *Roland Barthes for Dummies*). Soon Bayard finds himself in search of a lost manuscript by the linguist Roman Jakobson on the mysterious “ seventh function of language. ” A brilliantly erudite comedy that recalls Flaubert's *Parrot* and *The Name of the Rose*—with more than a dash of *The Da Vinci Code*—*The Seventh Function of Language* takes us from the cafés of Saint-Germain to the corridors of Cornell University, and into the duels and orgies of the Logos Club, a secret philosophical society that dates to the Roman Empire. Binet has written both a send-up and a wildly exuberant celebration of the French intellectual tradition.

Winner of the August Prize, Sweden's most important literary award A Globe and Mail Best Books of the Year 2011 Title To be published in more than twenty-five languages A major international literary event "This is real literature. A great work of fiction." —Per Svensson, *Dagens Nyheter* In February 1940, the Nazis established what would become the second-largest Jewish ghetto, in the Polish city of Łódź. The leader they appointed was Mordechai Chaim Rumkowski, a sixty-three-year-old Jewish businessman and orphanage director—and the elusive, authoritarian power sustaining the ghetto's very existence. A haunting, profoundly challenging novel, *The Emperor of Lies* chronicles the tale of Rumkowski's monarchical rule over a quarter-million Jews for the next four and a half years. Driven by a titanic ambition, he sought to transform the ghetto into a productive industrial complex and strove to make it—and himself—indispensable to the Nazi regime. These compromises would have extraordinary consequences not only for Rumkowski but for everyone living in the ghetto. Drawing on the detailed records of life in Łódź, Steve Sem-Sandberg, in a masterful feat of literary imagination and empathy, captures the full panorama of human resilience and probes deeply into the nature of evil. Through the dramatic narrative, he asks the most difficult questions: Was Rumkowski a ruthless opportunist, an accessory to the Nazi regime motivated by a lust for power? Or was he a pragmatist who managed to save Jewish lives through his collaboration policies? How did the inhabitants of the ghetto survive in such extreme circumstances? A critically acclaimed breakout bestseller in Sweden, *The Emperor of Lies* introduces a writer of great significance to American readers. The archives detail daily life in the Łódź ghetto, under the reign of Rumkowski, but it takes a writer with Sem-Sandberg's singular talent to help us understand the truth of this chilling history.

For readers of *Warlight* and *The Invisible Bridge*, an intimate, harrowing story about a family of German citizens during World War II. Included in the *New York Times Book Review's* Summer Reading Guide for Historical Fiction “ There was no shelter without her sons. ” In 1945, as the war in

Germany nears its violent end, the Huber family is not yet free of its dangers or its insidious demands. Etta, a mother from a small, rural town, has two sons serving their home country: her elder, Max, on the Eastern front, and her younger, Georg, at a school for Hitler Youth. When Max returns from the front, Etta quickly realizes that something is not right—he is thin, almost ghostly, and behaving very strangely. Etta strives to protect him from the Nazi rule, even as her husband, Josef, becomes more nationalistic and impervious to Max's condition. Meanwhile, miles away, her younger son Georg has taken his fate into his own hands, deserting his young class of battle-bound soldiers to set off on a long and perilous journey home. *The Vanishing Sky* is a World War II novel as seen through a German lens, a story of the irreparable damage of war on the home front, and one family's participation—involuntary, unseen, or direct—in a dangerous regime. Drawing inspiration from her own father's time in the Hitler Youth, L. Annette Binder has crafted a spellbinding novel about the choices we make for country and for family.

Just when one had started mourning the demise of avant-garde and postmodern fiction . . . here comes David Markson's latest 'novel' which is anything but a novel in any conventional sense of the term. Yet it manages to keep us enthralled . . . and even moved to tears at the end. And what a thrill it is to witness the performance, a real tour de force."

Through the sweeping cultural and historical transformations of China, entrepreneur Lan Yan traces her family's history through early 20th Century to present day. The history of the Yan family is inseparable from the history of China over the last century. One of the most influential business leaders of China today, Lan Yan grew up in the company of the country's powerful elite, including Mao Zedong, Zhou Enlai, and Deng Xiaoping. Her grandfather, Yan Baohang, originally a nationalist and ally of Chiang Kai-shek, later joined the communists and worked as a spy during World War II, never falling out of favor with Soong May-ling, aka Mrs. Chiang Kai-shek. Lan's parents were diplomats, and her father, Yan Mingfu, was Mao's personal Russian translator. In spite of their elevated status, the Yan's family life was turned upside down by the Cultural Revolution. One night in 1967, in front of a terrified ten-year-old Lan, Red Guards burst into the family home and arrested her grandfather. Days later, her father was arrested, accused of spying for the Soviet Union. Her mother, Wu Keilang, was branded a counter-revolutionary and forced to go with her daughter to a re-education camp for five years, where Lan came of age as a high school student. In recounting her family history, Lan Yan brings to life a century of Chinese history from the last emperor to present day, including the Cultural Revolution which tore her childhood apart. The reader obtains a rare glimpse into the mysteries of a system which went off the rails and would decimate a large swathe of the intellectual, economic and political elite country. The little girl who was crushed by the Cultural Revolution has become one of the most active businesswomen in her country. In telling her and her family's story, Lan Yan serves up an intimate account of the history of contemporary China.
