Brown Bag Lessons, The Magic of Bullet Writing centers on effective bullet writing and guarantees immediate improvement. Skillful writing doesn't have to be difficult. No other book approaches writing the way this book does, and no other book teaches these techniques. After reading this book, you will fully understand how to write strong bullets and "why" every word matters. In 2003 the author created a seminar to teach a fair and consistent process to evaluate recognition packages. This seminar transformed an entire organization within six months. Since then, the techniques have decisively transformed the writing, recognition, and promotions of every organization applying them. The practices in this book continue to positively impact the Air Force and sister services through professional military education. In addition, the concepts have helped transitioning service members and college students better communicate acquired capabilities and competencies on their résumés. Read on to discover the "magic" and open your eyes to a brand new way to look at writing. The US Air Force promotion system emphasizes the importance of documenting your very best accomplishments. Under this system, promotion comes from the most recent performance reports, so Airmen must communicate the best accomplishments and not just words that fill the white space. This Magic of Bullet Writing will ensure you know how to articulate not just what you are doing but also convey your strongest competencies and capabilities so the promotion board can fully assess your readiness for promotion. This novella is addressed mainly to parents and parents-to-be, although the general reader may enjoy trying to find out what it is all about in the first 40 pages, before the storm hits the ground. The hidden premise is "Mental disease is insidious." The message is, "Be careful, this may happen to you." This is a carefully constructed picture of a soul who hides the truth from himself, and tries to conceal it from his beloved mother. No matter, the forces of nature have "no pity, no mercy." The price of neglect and stupidity has to be paid. And, unfortunately, it is. This is a book to laugh, to cry, to suffer, and to enjoy with the characters. Life is a mysterious chain of events impossible to predict. The author challenges the readers to figure out what would they have done to change any of the events that took place.
