2d edition. Issued in looseleaf form with index dividers and a spine label. Prepared under contract by Robin Levin Penslar, at Indiana University, Poynter Center for the Study of Ethics and American Institutions. Includes sections on: institutional administration (of the Institutional Review Board, the IRB); regulations and policies; biomedical and behavioral research, an overview; special classes of subjects (such as fetuses, women, children, prisoners, comatose patients, and volunteers); bibliography; glossary; texts of international human rights documents (Nuremburg, Helsinki, and Belmont); lists of contacts; Federal regulations; and other information.

The Office of Human Subjects Research (OHSR) of the U.S. National Institutes of Health (NIH) offers access to institutional review board (IRB) review standards, OHSR information sheets, and forms. The office also provides statistics, as well as adverse event information that is accessible to the NIH only.

Institutional Review Board (IRB) members and oversight personnel face challenges with research involving new technology, management of big data, globalization of research, and more complex federal regulations. Institutional Review Board: Management and Function, Third Edition provides everything IRBs and administrators need to know about efficiently managing and effectively operating a modern and compliant system of protecting human research subjects. This trusted reference manual has been extensively updated to reflect the 2018 revisions to the Federal Policy for the Protection of Human Subjects (Common Rule). An essential resource for both seasoned and novice IRB administrators and members, Institutional Review Board: Management and Function provides comprehensive and understandable interpretations of the regulations, clear descriptions of the ethical principles on which the regulations are based, and practical step-by-step guidance for effectively implementing regulatory oversight.

This book is designed as an instructional manual that gives Institutional Review Board (IRB) members and administrators the information they need to run an efficient and effective system of protecting human research subjects, in compliance with federal research regulations. This reference provides a step-by-step approach to practical details of IRB administration and includes case studies, sample forms, and sample policy documents, as well as decision-making algorithms and lists of approval criteria for their resolution.
