Relations comprehensive guide to the events, organisations, theories and concepts that are shaping today's global community.

This best-selling dictionary contains over 1,700 entries on all aspects of politics. Written by a leading team of political scientists, it embraces the whole multi-disciplinary spectrum of political theory including political thinkers, history, institutions, and concepts, as well as notable current affairs that have shaped attitudes to politics. An appendix contains timelines listing the principal office-holders of a range of countries including the UK, Canada, the USA, Australia, New Zealand, Russia, and China. Fully revised and updated for the 3rd edition, the dictionary includes a wealth of new material in areas such as international relations, political science, political economy, and methodologies, as well as a

Relations chronology of key political theorists. It also boasts entry-level web links that don't go out of date. These can be accessed via a regularly checked and updated companion website, ensuring that the links remain relevant, and any dead links are replaced or removed. The dictionary has international coverage and will prove invaluable to students and academics studying politics and related disciplines, as well as politicians, journalists, and the general reader seeking clarification of political terms.

Containing over 500 definitions of political theories, dogmas and phraseologies, this dictionary includes updated entries on the European Community and federalism alongside new definitions of the European Court of Justice and Central Banks, among others. Frequently-used terms in Middle-Eastern

Get Free Penguin Dictionary Of International

Relations are explained, from Ayatollah and the Arab-Israeli wars, to fundamentalism and the Gulf War. It also includes sections on ideas that have become familiar terms over recent years, such as perestroika, glasnost, being politically correct, and Thatcherism, as well as issues that have taken on greater political significance - for example, abortion and environmentalism.

The Penguin Guide to Punctuation is indispensable for anyone who needs to get to grips with using punctuation in their written work. Whether you are puzzled by colons and semicolons, unsure of where commas should go or baffled by apostrophes, this jargon-free, succinct guide is for you.

Geopolitics, both in name, and in its application via geostrategy, is a controversial area of international

Get Free Penguin Dictionary Of International

Relations. Although the practice of obtaining resources is as old as Mankind, the word came into its own with the imperial policies of the great powers in the nineteenth century, was used to justify world wars, went into decline, but was 'taken to America' and then re-exported to Europe after the last war by the likes of Henry Kissinger. Nowadays, the term is used unconsciously by politicians obsessed with power, often to justify war. This book tears apart the simplistic thinking of geopolitics, and proposes its replacement with the authors' own method of 'geohistory', a method based on recognising that at the base of any analysis and evaluation of the international situation lie human characteristics.

This dictionary of grammatical terms

Get Free Penguin Dictionary Of International

Relations covers both current and traditional terminology in syntax and morphology. It includes descriptive terms, the major theoretical concepts of the most influential grammatical frameworks, and the chief terms from mathematical and computational linguistics. It contains over 1500 entries, providing definitions and examples, pronunciations, the earliest sources of terms and suggestions for further reading, and recommendations about competing and conflicting usages. The book focuses on non-theory-bound descriptive terms, which are likely to remain current for some years. Aimed at students and teachers of linguistics, it allows a reader puzzled by a grammatical term to look it up and locate further reading with ease.

Concise and detailed, with extensive cross-referencing, this new edition offers
