Grenadier Division

Leibstandarte Ss Adolf And

In the first months of 1943, the SS Panzer-Grenadier Division Leibstandarte SS Adolf Hitler was involved in all phases of the complex Kharkov campaign. During the initial defensive fighting, the division held its sector for two weeks against the full weight of the Soviet 3rd Tank Army; a remarkable feat in itself. After the city fell, the Leibstandarte withdrew to a new defensive position and protected the important supply rail centre at Krasnograd while the Das Reich and Totenkopf divisions executed the first phase of the counterattack. When the 3rd Tank Army began its move south to block the advance of these two SS divisions, Leibstandarte carried out

raids and interdictory strikes that disrupted the Soviet realignment and weakened the army's fighting power. Having rejoined the SS Panzerkorps, after taking part in the destruction of the Kegitschevka pocket, the Leibstandarte led the way back to the city of Kharkov. Dynamic young officers such as Kurt Meyer, Max Wünsche and Jochen Peiper personally led attack columns that struck deep into the city, eventually forcing the Russian troops to abandon Kharkov. From these photographs, it is clear why, after enduring the losses necessary to retake the city, these renamed the enormous Red Square as Platz der Leibstandarte. High quality reproductions of original wartime photos, and compelling captions by author George Nipe illustrate in incredible detail the men,

This book is the first detailed and comprehensive account of the Kharkov counteroffensive, the operations of the SS divisions and the supporting actions of Armeeabteilung Fretter-Pico and 1. Panzerarmee, and is supported by over 210 photographs and maps. By the end of January of 1943, Hitler's armies had been dealt a series of defeats by the Russians, beginning with the disaster at Stalingrad. Successive Soviet offensives had destroyed the German 6. Armee and annihilated the armies of Germany's Axis allies, Italy, Rumania and Hungary. Germany teetered on the brink of defeat in World War II because the Soviet advance threatened to drive to the Dnepr River and encircle the remaining Germans

armies in southern Russia. Stalin and the Russian high command believed that the war could be won with just one more great effort. Accordingly, they planned and launched two offensives, designated Operations "Star" and "Gallop." The focal points of the two offensives included the recapture of Kharkov, the industrial heart of the Ukraine and the destruction of Armeeabteilung Hollidt, 4. Panzerarmee and 2. Armee. Feldmarschall Erich von Manstein entered the picture in late 1942 when he was appointed commander of Heeresgruppe Don. Beginning in February he engineered a remarkable operation that changed the course of the war in Russia. Manstein's counteroffensive destroyed or severely damaged four Russian armies and regained much of the territory lost in

January. The troops that played the most important role in the offensive were three divisions of the Waffen-SS. "Leibstandarte," "Das Reich" and "Totenkopf" were combined for the first time into a corps, which was commanded by SS-

Obergruppenfuhrer Paul Hausser, the senior commander of the Waffen-SS. "Leibstandarte" and "Das Reich" participated in the defense of Kharkov, along with the elite Army division "Grossdeutschland" supported by three weak infantry divisions. This handful of divisions was attacked by four Soviet armies, but under command of Armeeabteilung Lanz, was able to hold the city for two weeks. On 14 February, 1943 the SS-Panzerkorps and the rest of Armeeabteilung Lanz withdrew from Kharkov under disputed circumstances

that involved Hausser and his violation of a direct order from Hitler. Almost exactly a month later, the Germans had recaptured Kharkov and destroyed or crippled the four Soviet armies that had driven them out of the city in February. The divisions that played the key role in Manstein's counteroffensive were the three divisions of the Waffen-SS. While "Leibstandarte" defended the supply base of the SS-Panzerkorps from the entire Soviet 3rd Tank Army, "Das Reich" and "Totenkopf" conducted a complex series of operations that began with a 100 kilometer thrust to the south which saved the Dnepr bridges, thus securing supply lines for the armies of Heeresgruppe Don/Sud. Subsequent operations by the SS divisions drove the Russians away from the rail net south of Kharkov and

wrested Kharkov from the Russians once again. During the recapture of the city, there was controversy regarding Hausser's command decisions. Hausser has been accused of disregarding his instructions from superior officers and throwing his divisions into costly combat in the city for reasons of personal and SS prestige, in order to regain Hitler's favor. This study has found that the records of the SS-Panzerkorps and 4. Panzerarmee provide a different explanation for Hausser's actions.

In the summer of 1941, a collective madness overtook Adolf Hitler and his senior generals. They convinced themselves that they could take on and defeat a superpower in the making – the Soviet Union. Foolishly, they thought in a swift campaign they could smash the Red Army and force Stalin to sue for peace, despite dire warnings that Stalin was amassing a reserve army of more than 1 million men on the Volga. The end result would be such carnage that it would tear the German forces apart. In his major reassessment of the war on the Eastern Front, Anthony Tucker-Jones casts new light on the brutal fighting, including such astounding German defeats as at Stalingrad, Kursk, Minsk and, finally, Berlin. He controversially contends that from the very start

intelligence officers on both sides failed to influence their leadership resulting in untold slaughter. He also reveals the shocking blunders by Hitler, Stalin and even Churchill that led to the appalling, needless destruction of Hitler's armed forces as early as the winter of 1941-42. Step by step, Tucker-Jones describes how the German war machine fought to its very last against a relentless enemy, fully aware that defeat was inevitable.

“A bad reputation has its commitments.” So wrote home Jochen Peiper from the fighting front in the East in 1943, characterizing his battle-hardened command during the Second World War. Peiper's War is a

A new serious work of military history by the renowned author Danny S. Parker which presents a unique view off the Second World War as seen from a prominent participant on the dark side of history. The story follows the wartime career of Waffen SS Colonel Jochen Peiper, a handsome Aryan prodigy who was considered a hero in the Third Reich. Peiper had been Heinrich Himmler's personal adjutant in the early years of the war, and, having procured a field command in Hitler's namesake fighting force, the Leibstandarte Adolf Hitler, he become famous for a flamboyant and brutal style of warfare on the Eastern Front. There, in his sphere, few prisoners were taken, and motives of racial genocide were never far from unspoken orders. Transferred to the west, Peiper's battlegroup incinerated

a tiny town in Northern Italy and killed the village mayor and priest. Being well-connected to Himmler and other generals of the period, Peiper finds a place in the narrative as a storied witness to the inner workings of the Nazi elite along with other prominent SS officers such as Kurt Meyer. In this meticulously researched work, we witness the apex and then death spiral of Nazi military intentions as Peiper fights for Germany across every front in the conflict. Peiper's War provides a telling inside look at Hitler's war and then how the dark secrets of his security-minded command were improbably unearthed at the end of the conflict by an obscure top-secret surveillance facility in the United States.

photographs of outstanding war reporter SS P. K. Roth. Although he died in March 1943, Roth left more than 120 rolls of film that give historians and history lovers a precious account of the war. This album contains pictures Franz (Seranhicus) Roth (1911-1943) took of the "Leibstandarte", especially in the Balkans at the beginning of 1941, during the "Barbarossa" operation, the Russian campaign in 1941-1942, and in France in 1942, before the transfer to the front near Kharkov. The book is a photo album with bilingual captions. The album contains more than 600 photographs from contact sheets kept by the U.S. NATIONAL ARCHIVES in WASHINGTON D.C. Some of Roth's reports have been reproduced almost in full, which gives them a cinematic sense of continuity.
