dark fantasy about a girl who sells magical body parts on the black market — until she's betrayed. Nita doesn't murder supernatural beings and sell their body parts on the internet—her mother does that. Nita just dissects the bodies after they've been “acquired.” Until her mom brings home a live specimen and Nita decides she wants out; dissecting a scared teenage boy is a step too far. But when she decides to save her mother's victim, she ends up sold in his place—because Nita herself isn't exactly “human.” She has the ability to alter her biology, a talent that is priceless on the black market. Now on the other side of the bars, if she wants to escape, Nita must ask herself if she's willing to become the worst kind of monster.

foundational standard, developed as a basis for business analysis for portfolio, program, and project management. This standard illustrates how project management processes and business analysis processes are complementary activities, where the primary focus of project management processes is the project and the primary focus of business analysis processes is the product. This is a process-based standard, aligned with A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Sixth Edition, and to be used as a standard framework contributing to the business analysis body of knowledge.

International Institute of Business Analysis(TM) (IIBA(R)) since 2009. The Agile Extension provides guidance for Agile practitioners or anyone interested in leveraging effective Agile business analysis to create better business outcomes that add real business and customer value

Business Analysis for Practitioners: A Practice Guide provides practical resources to tackle the project-related issues associated with requirements and business analysis—and addresses a critical need in the industry for more guidance in this area. The practice guide begins by describing the work of business analysis. It identifies the tasks that are performed, in addition to the essential knowledge and skills needed to effectively perform business analysis on programs and projects.
