Arguing that today's dynamic business environments have irrevocably transformed the employer-employee relationship, a guide for managers outlines win-win strategies that promote trust between workers and management through flexible, alliance-based working agreements. 100,000 first printing.

The New York Times Bestselling guide for managers and executives. Introducing the new, realistic loyalty pact between employer and employee. The employer-employee relationship is broken, and managers face a seemingly impossible dilemma: the old model of guaranteed long-term employment no longer works in a business environment defined by continuous change, but neither does a system in which every employee acts like a free agent. The solution? Stop thinking of employees as either family or as free agents. Think of them instead as allies. As a manager you want your employees to help transform the company for the future. And your employees want the company to help transform their careers for the long term. But this win-win scenario will happen only if both sides trust each other enough to commit to mutual investment and mutual benefit. Sadly, trust in the business world is hovering at an all-time low. We can rebuild that lost trust with straight talk that recognizes the realities of the modern economy. So, paradoxically, the alliance begins with managers acknowledging that great employees might leave the company, and with employees being honest about their own career aspirations. By putting this new alliance at the heart of your talent management strategy, you'll not only bring back trust, you'll be able to recruit and retain the entrepreneurial individuals you need to adapt to a fast-changing world. These individuals, flexible, creative, and with a bias toward action, thrive when they're on a specific "tour of duty"—when they have a mission that's mutually beneficial to employee and company that can be completed in a realistic period of time. Coauthored by the founder of LinkedIn, this bold but practical guide for managers and executives will give you the tools you need to recruit, manage, and retain the kind of employees who will make your company thrive in today's world of constant innovation and fast-paced change.

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will discover a new management model based on a respectful and balanced relationship between employer and employee. You will also discover how : establish a win-win relationship between employer and employee based on trust and alignment of values ; recruit better profiles through transparency and shared values; become a company that listens to its employees and is open to the outside world; to build a rich career thanks to evolutionary missions; take advantage of the professional network of current and former employees. Today, we no longer work as we did fifty years ago. Employees no longer spend their entire career in the same company and they are also increasingly vulnerable because of short-term economic issues. However, the status of self-employed worker is not the solution, given its precariousness. To maintain employment, a new type of relationship must be developed: the alliance between employer and employee. This new "win-win" contract is based on mutual trust and benefits both the employee and the company. *Buy now the summary of this book for the modest price of a cup of coffee!

Ben Casnocha discovered he was entrepreneur at age 12 and hasn't slowed down since. In this remarkably instructive book, Ben dissects the entrepreneurship "gene," explaining that everyone has inherited it if they have an idea to make the world a better place. In Casnocha's case, he found a better way for city governments to communicate with constituents on the Web. Six years later, Comcate has dozens of municipal clients, a growing staff, and a record of excellence. This book is the story of his start-up, but also a conversation with his mentors, clients and fellow entrepreneurs about how to make a business idea work?and how to have the time of your life trying. From Pat Lencioni to Marc Benioff of salesforce.com, Ben has won over the best and brightest of the business world?now it's your turn!

Foreword by Bill Gates LinkedIn cofounder, legendary investor, and host of the award-winning Masters of Scale podcast reveals the secret to starting and scaling massively valuable companies. What entrepreneur or founder doesn't aspire to build the next Amazon, Facebook, or Airbnb? Yet those who actually manage to do so are exceedingly rare. So what separates the startups that get disrupted and disappear from the ones who grow to become global giants? The secret is blitzscaling: a set of techniques for scaling up at a dizzying pace that blows competitors out of the water. The objective of Blitzscaling is not to go from zero to one, but from one to one billion --as quickly as possible. When growing at a breakneck pace, getting to next level requires very different strategies from those that got you to where you are today. In a book inspired by their popular class at Stanford Business School, Hoffman and Yeh reveal how to navigate the necessary shifts and weather the unique challenges that arise at each stage of a company's life cycle, such as: how to design business models for igniting and sustaining relentless growth; strategies for hiring and managing; how the role of the founder and company culture must evolve as the business matures, and more. Whether your business has ten employees or ten thousand, Blitzscaling is the essential playbook for winning in a world where speed is the only competitive advantage that matters.

Want to end poverty for good? Entrepreneur and Samasource founder Leila Janah has the solution—give work, not aid. "An audacious, inspiring, and practical book. Leila shows how it's possible to build a successful business that lifts people out of poverty—not by giving them money but by giving them work. It's required reading for anyone who's passionate about solving real problems." —Adam Grant, author of Give and Take and Originals Despite trillions of dollars in Western aid, 2.8 billion people worldwide still struggle in abject poverty. Yet the world's richest countries continue to send money—mostly to governments—targeting the symptoms, rather than the root causes of poverty. We need a better solution. In Give Work, Leila Janah offers a much-needed solution to solving poverty: incentivize everyone from entrepreneurs to big companies to give dignified, steady, fair-wage work to low-income people. Her social business, Samasource, connects people living below the poverty line—on roughly \$2 a day—to digital work for major tech companies. To date, the organization has provided over \$10 million in direct income to tens of thousands of people the world had written off, dramatically altering the trajectory of entire communities for the better. Janah and her team go into the world's poorest regions—from refugee camps in Kenya to the Mississippi Delta in Arkansas—and train people to do digital work for companies like Google, Walmart, and Microsoft. Janah has tested various Give Work business models in all corners of the world. She shares poignant stories of people who have benefited from Samasource's work, where and why it hasn't worked, and offers a blueprint to fight poverty with an evidence-based, economically sustainable model. We can end extreme poverty in our lifetimes. Give work, and you give the poorest people on the planet a chance at happiness. Give work, and you give people the freedom to choose how to develop their own communities. Give work, and you create infinite possibilities.

What can you learn from a Silicon Valley legend and a pantheon of iconic leaders? The key to scaling a successful business isn't talent, network, or strategy. It's an entrepreneurial mindset—and that mindset can be cultivated. "If you're scaling a company—or if you just love a well-told story—this is a book to savor."—Robert Iger, #1 New York Times bestselling author of The Ride of a Lifetime Behind the scenes in Silicon Valley, Reid Hoffman (founder of LinkedIn, investor at Greylock) is a sought-after adviser to heads of companies and heads of state. On each episode of his podcast, Masters of Scale, he sits down with a guest from an all-star list of visionary founders and leaders, digging into the surprising strategies that power their company's growth. In this book, he draws on their most riveting, revealing stories—as well as his own experience as a founder and investor—to distill the secrets behind the most extraordinary success stories of our times. Here, Hoffman teams up with Masters of Scale's executive producers to offer a rare window into the entrepreneurial mind, sharing hard-won wisdom from leaders of iconic companies (including Apple, Nike, Netflix, Spotify, Starbucks, Google, Instagram, and Microsoft) as well as the bold, disruptive startups (such as 23andMe, TaskRabbit, Black List, and Walker & Co.) that are solving the problems of the twenty-first century. Through vivid storytelling and incisive analysis, Masters of Scale distills their collective insights into a set of counterintuitive principles that anyone can use. How do you find a winning idea and turn it into a scalable venture? What can you learn from a "squirmy no"? When should you stop listening to your customers? Which fires should you put out right away, and which should you let burn? And can you really make money while making the world a better place? (Answer: Yes. But you have to keep your profits and values aligned.) Based on more than a hundred interviews and including a wealth of new material never aired on the podcast, this unique insider's guide will inspire you to reimagine how you do business today.
