The Encyclopedia of Tibetan Symbols and Motifs: Beer ...

An ultimate sourcebook to the symbolic language of Tibetan art. Hundreds of author Robert Beer's own exquisite line drawings depict major Tibetan symbols and motifs--landscapes, deities, animals, plants, gurus, mudras (ritual hand gestures), dragons and other mythic creatures--ranging from complex mythological scenes to small, simple ornaments. Line art throughout.

This study of the sacred art of Tibet is the result of eight years of brush drawing, and a lifetime spent researching and reflecting upon the inner and often hidden meanings and origins encapsulated in this complex iconographical tradition. Several thousand individual drawings arranged as a series of 170 pages illustrate the many variations in style, lineages and individual expression of these objects. The text interweaves the origins, meanings and functions of these symbols, derived from India, Tibet and China, into a comprehensive tapestry within a Buddhist conceptual framework.

Based on the author's previous publication The Encyclopedia of Tibetan Symbols and Motifs, this handbook contains an array of symbols and motifs, accompanied by succinct explanations. It provides treatment of the essential Tibetan religious figures, themes and motifs, both secular and religious.

Philosophy or religion, way of life or way of being, Buddhism never ceases to intrigue. Its multiple facets bear witness to the diversity of its paths, and its innumerable aspects can disorient the newcomer. The essence however remains, a deep root common to all those searching for knowledge: a man, anchored in a moment of history, awakened to affirm that it is within the power of everyone to attain wisdom. Metamorphosis is not sudden, cannot happen from one day to the next; it demands reflection and time, the reading of many symbols. The renewed interest that Buddhism has enjoyed over the past years - led by its spiritual and temporal guide, the Dalai Lama - has made it possible to approach the meaning and origins of this teaching more fully. --Publishers website.

In this fascinating study, Dargab Rinpoche not only explains the nine best-known groups of Tibetan Buddhist symbols but also shows how they serve as bridges between our inner and outer worlds. As such, they can be used to point the way to ultimate reality and to transmit a reservoir of deep knowledge formed over thousands of years.

The thangka is a way for Tibetan Buddhist monks to bring the life and teachings of the Buddha to the people through the visual medium of paint. An extraordinary encyclopedia of Buddhist icons. Illustrating the Rin 'byung bryga rtsa, the Nar thang bryga rtsa, and the Vajravali, the book is based on a collection of over five hundred images of Tibetan deities. The images, presented in the book at full scale, were originally created by a master artist in the early nineteenth century to serve as initiation cards (tsakli). The original tsakli were woodblock prints, hand colored at the request of a Ch'ing Dynasty nobleman who had received the initiations. Such cards are used in ceremonies to introduce the practitioner to the deity and his or her practice. The paintings are housed in the Ethnographic Museum of the University of Zurich. Deities of Tibetan Buddhism is also an indispensable reference tool for Tibetologists, students of Mahayana Buddhism, and museum curators. Its extensive supplementary materials include English translations of the deities' postures, attributes, and colors; and the dharanis and mantras used in their invocation. Co-editor Martin Willson spent more than a decade translating and documenting this work. He has provided detailed explanations of technical terms, enlightening explanatory notes, and glossaries documenting the discrepancies in the depictions. The extensive pictorial index, featuring drawings and text by Robert Beer, explains the symbolic meaning behind the deities' implements and adornments. The cross-referenced indices for Tibetan, Sanskrit, Mongolian, and English names and terms provide quick access to vast amounts of information. Co-editor Martin Brauen and the technical staff of the Ethnographic Museum of the University of Zurich have documented the relationship between this and other sets of initiation cards that exist elsewhere, as well as detailing the construction materials and methods involved in producing this set. Deities of Tibetan Buddhism is a reference book without peer, essential for any serious student of Tibetan and East Asian art and religion.

More than two hundred photographs most in stunning full colour provide the visual context for this tour of the world of Buddhist art. Included in the rich variety of forms are architecture and monumental art, statuary, paintings, calligraphy, fresco, brushwork, and textile arts.

Accompanying an exhibition to be held in New York during late fall of 1998, Sacred Visions is a superbly illustrated volume of art works from the 11th to the mid-15th centuries which includes scholarly essays that relate to the paintings to be displayed.
