Decades ago in the small town of Fogg Lake, *The Incident* occurred: an explosion in the cave system that released unknown gases. The residents slept for two days. When they woke up they discovered that things had changed--they had changed. Some started having visions. Others heard ominous voices. And then, scientists from a mysterious government agency arrived. Determined not to become research subjects of strange experiments, the residents of Fogg Lake blamed their "hallucinations" on food poisoning, and the story worked. But now it has become apparent that the eerie effects of *The Incident* are showing up in the descendants of Fogg Lake.... Catalina Lark and Olivia LeClair, best friends and co-owners of an investigation firm in Seattle, use what they call their "other sight" to help solve cases. When Olivia suddenly vanishes one night, Cat frantically begins the search for her friend. No one takes the disappearance seriously except Slater Arganbright, an agent from a shadowy organization known only as

Singapore, 1939: life on the eve of World War II just isn't what it used to be for Walter Blackett, head of British Singapore's oldest and most powerful firm. No matter how forcefully the police break one strike, the natives go on strike somewhere else. His daughter keeps entangling herself with the most unsuitable beaux, while her intended match, the son of Blackett's partner, is an idealistic sympathizer with the League of Nations and a vegetarian. Business may be booming—what with the war in Europe, the Allies are desperate for rubber and helpless to resist Blackett's price-fixing and market manipulation—but something is wrong. No one suspects that the world of the British Empire, of fixed boundaries between classes and nations, is about to come to a terrible end. A love story and a war story, a tragicomic tale of a city under siege and a dying way of life, *The Singapore Grip* completes the “Empire Trilogy” that began with *Troubles* and the Booker prize-winning *Siege of Krishnapur*.

I was so sure I saw Sophie on the beach that day. But it couldn't be her. Sophie's dead... Ever since we swore to be best friends at school, Sophie was there for me. When she married my brother, she became family. We shared everything. At least I thought we did. After she died, I was devastated. Everyone else has moved on, but I can't. She was so quiet, those last few months. I'm sure there is something I don't know... Now I'm standing on the beach we visited when we were younger, and there's a woman with long blond hair a few metres away, playing with a dog in the sunshine. She turns, and I see Sophie. Heart racing, I run after her, but before I can reach her she's vanished, leaving only footprints in the sand. It can't be Sophie... Can it? And do I want to know, if the answer will destroy everything? A gripping emotional page-turner about the ways we lie to ourselves and how love and hope can heal us.
