political phenomenon that promoted a proud racial identity, economic independence, and progressive politics. The Harlem Renaissance: A Very Short Introduction identifies the issues and strategies that engaged writers, musicians, and visual artists alike.

Exploring the Renaissance as a time of unprecedented intellectual excitement & cultural experimentation & interaction on a global scale, this book guides the reader through the key issues that defined the period, from art, architecture, & literature, to the advances in science, trade & travel.

More than ever before, the Renaissance stands as one of the defining moments in world history. Between 1400 and 1600, European perceptions of society, culture, politics and even humanity itself emerged in ways that continue to affect not only Europe but the entire world. This wide-ranging exploration of the Renaissance sees the period as a time of unprecedented intellectual excitement and cultural experimentation and interaction on a global scale, alongside a darker side of religion, intolerance, slavery, and massive inequality of wealth and status. It guides the reader through the key issues that defined the period, from its art, architecture, and literature, to advancements in the fields of science, trade, and travel. In its incisive account of the complexities of the political and religious upheavals of the period, the book argues that Europe's reciprocal relationship with its eastern neighbours offers us a timely perspective on the Renaissance as a moment of global inclusiveness that still has much to teach us today.

Botticelli, Holbein, Leonardo, Dürer, Michelangelo: the names are familiar, as are the works, such as the Last Supper fresco, or the monumental marble statue of David. But who were these artists, why did they produce such memorable images, and how would

their original beholders have viewed these objects? Was the Renaissance only about great masters and masterpieces, or were "mistresses" also involved, such as women artists and patrons? And what about the 'minor'-pieces that Renaissance men and women would have encountered in homes, churches and civic spaces? This exciting and stimulating volume will answer such questions by considering both famous and lesser-known artists, patrons and works of art within the cultural and historical context of Renaissance Europe. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

"This Very Short Introduction offers an overview of the Harlem Renaissance, a cultural awakening among African Americans between the two world wars. Cheryl A. Wall brings readers to the Harlem of 1920s to identify the cultural themes and issues that engaged writers, musicians, and visual artists alike"--

A concise and readable introduction to Renaissance art.-publisher description.

Lawrence M. Principe takes a fresh approach to the story of the scientific revolution, emphasising the historical context of the society and its world view at the time. From astronomy to alchemy and medicine to geology, he tells this fascinating story from the perspective of the historical characters involved.

Explores significant business dealings between artists and patrons in a historical tour through the Renaissance that posits that the period's fabulous advances in culture were tied to the creation of

wealth

From Gregorian chant to Bach's Brandenburg Concerti, the music of the Medieval, Renaissance, and Baroque periods is both beautiful and intriguing, expanding our horizons as it nourishes our souls. In this Very Short Introduction, Thomas Forrest Kelly provides not only a compact overview of the music itself, but also a lively look at the many attempts over the last two centuries to revive it. Kelly shows that the early-music revival has long been grounded in the idea of spontaneity, of excitement, and of recapturing experiences otherwise lost to us--either the rediscovery of little-known repertoires or the recovery of lost performing styles, with the conviction that, with the right performance, the music will come to life anew. Blending musical and social history, he shows how the Early Music movement in the 1960s took on political overtones, fueled by a rebellion against received wisdom and enforced conformity. Kelly also discusses ongoing debates about authenticity, the desirability of period instruments, and the relationship of mainstream opera companies and symphony orchestras to music that they often ignore, or play in modern fashion.

This work decodes the key themes, signs and symbols found in Christian art - the Eucharist, the Crucifixion, the Virgin Mary. It also explores the theological and historical background of Christian imagery, from the devotional works of the medieval and Renaissance periods, to the 21st century.
