Light-filled houses built with an emphasis on natural materials by award-winning Southern architect Jeffrey Dungan. Following in the tradition of populist architects Gil Schafer and Bobby McAlpine, Dungan designs new traditional houses for today—houses with clean lines, made with stone and wood, that carry an air of lasting beauty and that are made to be handed on to future generations. In his first book, Dungan shares his advice and insight for creating these “forever” houses and explores eight houses in full, from a beach house on the Gulf Coast to a farmhouse in the Southern countryside to a family home in the Blue Ridge Mountains. All speak of authenticity, timelessness, and lived history that reveals itself through the rich patinas and natural textures that come with age. Layered in between are thematic essays and imagery celebrating the importance of elements such as light, stone, and rooflines in creating a home.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an

introduction by Will Self.

Presents more than 80 fun-to-stitch projects made from Mary Engelbreit's charming designs.

The book *Lifhack* calls "The Bible of business and personal productivity." "A completely revised and updated edition of the blockbuster bestseller from 'the personal productivity guru'"—Fast Company Since it was first published almost fifteen years ago, David Allen's *Getting Things Done* has become one of the most influential business books of its era, and the ultimate book on personal organization. "GTD" is now shorthand for an entire way of approaching professional and personal tasks, and has spawned an entire culture of websites, organizational tools, seminars, and offshoots. Allen has rewritten the book from start to finish, tweaking his classic text with important perspectives on the new workplace, and adding material that will make the book fresh and relevant for years to come. This new edition of *Getting Things Done* will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

*A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

After Batman meets a young boy whose parents were murdered, he reflects on his own life and examines the nature of crime in Gotham City.

The measure of the executive, Peter Drucker reminds us, is the ability to 'get the right things done'. Usually this involves doing what other people have overlooked, as well as avoiding what is unproductive. He identifies five talents as essential to effectiveness, and these can be learned; in fact, they must be learned just as scales must be mastered by every piano student regardless of his natural gifts. Intelligence, imagination and knowledge may all be wasted in an executive job without the acquired habits of mind that convert these into results. One of the talents is the management of time. Another is choosing what to contribute to the particular organization. A third is knowing where and how to apply your strength to best effect. Fourth is setting up the right priorities. And all of them must be knitted together by effective decision-making. How these can be developed forms the main body of the book. The author ranges widely through the annals of business and government to demonstrate the distinctive skill of the executive. He turns familiar experience upside down to see it in new perspective. The book is full of surprises, with its fresh insights into old and seemingly trite situations.

A haunting gothic tale by master misery writer John Bellairs--soon to be a major motion picture starring Cate Blanchett and Jack Black! "The House With a Clock in Its Walls will cast its spell for a long time."--The New York Times Book Review When Lewis Barnavelt, an orphan. comes to stay with his uncle Jonathan, he expects to meet an ordinary person. But he is wrong. Uncle

Jonathan and his next-door neighbor, Mrs. Zimmermann, are both magicians! Lewis is thrilled. At first, watching magic is enough. Then Lewis experiments with magic himself and unknowingly resurrects the former owner of the house: a woman named Selenna Izard. It seems that Selenna and her husband built a timepiece into the walls—a clock that could obliterate humankind. And only the Barnavelts can stop it!

The Wall Street Journal bestseller—a Financial Times Business Book of the Month and named by The Washington Post as “One of the 11 Leadership Books to Read in 2018”—is “a refreshingly data-based, clearheaded guide” (Publishers Weekly) to individual performance, based on a groundbreaking study. Why do some people perform better at work than others? This deceptively simple question continues to confound professionals in all sectors of the workforce. Now, after a unique, five-year study of more than 5,000 managers and employees, Morten Hansen reveals the answers in his “Seven Work Smarter Practices” that can be applied by anyone looking to maximize their time and performance. Each of Hansen’s seven practices is highlighted by inspiring stories from individuals in his comprehensive study. You’ll meet a high school principal who engineered a dramatic turnaround of his failing high school; a rural Indian farmer determined to establish a better way of life for women in his village; and a sushi chef, whose simple preparation has led to his unassuming restaurant being awarded the maximum of three Michelin stars. Hansen also explains how the way Alfred Hitchcock filmed *Psycho* and the 1911 race to become the first explorer to reach the South Pole both illustrate the use of his seven practices. Each chapter “is intended to inspire people to be better workers...and improve their own work performance” (Booklist) with questions and key insights to allow you to assess your own performance and figure out your work strengths, as well as your weaknesses. Once you understand your individual style, there are mini-quizzes, questionnaires, and clear tips to assist you focus on a strategy to become a more productive worker. Extensive, accessible, and friendly, *Great at Work* will help us “reengineer our work lives, reduce burnout, and improve performance and job satisfaction” (Psychology Today).
