Gillian Cross's brilliant retelling and Neil Packer's glorious illustrations bring to life Homer's Iliad, one of the greatest stories ever told. The team behind The Odyssey (2012) now tell the story of the Trojan War. Cross's vivid adaptation begins with a beauty contest: the prize, a golden apple. In return for securing her victory, the goddess Aphrodite helps Prince Paris abduct Helen, wife to the king of Sparta. Enraged, the king and his Greek allies wage war on the Trojans. Nine years later, the fighting still rages on, but the Greeks are beginning to quarrel among themselves - Achilles and Agamemnon's petty argument has dire consequences for everyone caught in the crossfire. Neil Packer's pictures capture the beauty and remoteness of the setting, and bring a profound humanity to one of the finest literary achievements of Greek civilization.

his worries. He isn't fitting in well at school. His grades are slipping. He's even lashing out at those who love him. Talented Australian artist Mel Tregonning created *Small Things* in the final year of her life. In her emotionally rich illustrations, the boy's worries manifest as tiny beings that crowd around him constantly, overwhelming him and even gnawing away at his very self. The striking imagery is all the more powerful when, overcoming his isolation at last, the boy discovers that the tiny demons of worry surround everyone, even those who seem to have it all together. This short but hard-hitting wordless graphic picture book gets to the heart of childhood anxiety and opens the way for dialogue about acceptance, vulnerability, and the universal experience of worry.

The National School Improvement Tool brings together findings from international research into the practices of highly effective schools and school leaders. The Tool assists schools to review and reflect on their efforts to improve the quality of classroom teaching and learning. It supports school-wide conversations - including with parents and families, school governing bodies, local communities and students themselves - about aspects of current practice, areas for improvement and evidence that progress is being made. The Tool does not describe everything that effective schools do, but focuses on those practices that are most directly related to school-wide improvements, and thus outcomes for students. In this sense, the tool can be thought of as a core element of more comprehensive school improvement programs, frameworks and initiatives.

A combination assessment tool and guide for teaching identifies the literacy goals appropriate to grades PreK-eight and offers tools to help analyze students' strengths and identify areas needing teaching support.
